

Infrared Thermometry

Part TT-D-IR

Features:

- Temperatures in under 2
- Hygienic touchless loading and ejecting of probe
- Battery life of 15,000
- Intuitive icon based interface
- Pulse timer
- Tapered tip design suitable for babies, children and adults
- Durable stainless steel probe tip
- Convenient probe storage in

Our infrared thermometer provides a quick non-invasive measurement. The tapered probe design allows for a 2 second measurement making it easy to use with children.

Infrared Thermometry Options

Disposable Probe Covers

- Single use probe covers minimize the risk of cross contamination.
- Probe covers conveniently fit into holder.
- Touchless probe cover loading and ejecting support infection control.

Part Number: 303030:

Mounting Options

- Thermometry unit can be mounted on wall, rail system or roll stand.
- Mounting solution can be fully customized to your needs.

Specifications

Accuracy

- Quick Mode ± 0.1 °C
- Standard Mode ± 0.1 °C (± 0.2)
- Direct Mode ± 0.1 °C

Measurement Response Time

- Quick Mode: 1-2

Ambient Operating Range

- 16°C-33°C (60.8°F-107.6°F) at 10%-95% RH

Temperature Range

- 33.0°C-42.0°C (91.4°F-107.6°F)

Storage Temperature Range

- -25°C-55°C (-13°F-131°F) at

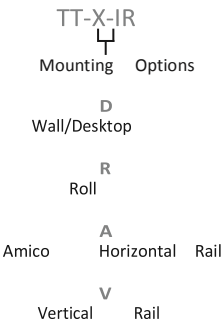

Battery Life

- 15,000 measurements on 3 AAA

Anti-Theft System

- Wall mount bracket
