Hill Rom Advanta Refurbished Bed w/New Mattress
Order #132269 \$2175.00

The Advanta features promote safety and simplicity. It includes Easy Grip siderail controls that are conveniently located in a central location where patient and caregiver interaction occurs. The featured One-button Chair In position enables caregiver to place patient in the chair position while the bed remains at low height. Its 4 corner brake and steer system allows for easy mobility, and a CPR release function is available to allow for quick CPR positioning along with a removable headboard to assist in CPR positioning.

The built in side rail positioning control allows patients to access bed control and adjust as needed for their level of comfort. Lockout for these controls is also possible so the bed may not be adjusted with patient controls. A night light is located at the front end of the bed frame for in-bed safety.

Hill-Rom Advanta Hospital Bed Features:

- Easy Grip siderail controls.
- Removable headboard.
- Removable IV pole.
- Central brake/steer.
- Drainage bag holders.
- Caregiver footboard controls.
- Removable footboard.
- Speaker for Nurse Call.

CPR Release: Takes head down from elevated position.

Side rails that may be stowed, lowered, or raised.

Bed Scale (optional): Has an accuracy of 1% and an operating range of 0 to 450 lbs (0 to 204 kg). The display and 6 scale keys are located on the footboard control panel.

Patient Position Monitor (Bed Exit System) (optional): The integrated PPM has multiple modes of operation and multiple volume settings. It allows caregivers to individually determine the proper level of unattended monitoring for each patient. The PPM was designed by caregivers for a balance of flexibility and ease of use.
