The VersaCare Bed has features to ensure safety for both active and less active patients.

Hill-Rom VersaCare Hospital Bed Features:

Patient controls.

LowChair: Allows caregiver to keep the bed at the same low position while placing it in chair position.

Automatic reactivation.

FlexAFoot: Foot platform extender that customizes the bed length up to

12" and helps patients from sliding down the bed.

Easy-to-grip side rails.

Fixed headboard stays the same - the optimal height for pushing.

Hands-free foot controls to adjust bed.

Low height that makes getting in and out of bed easier for more active patients.

3-Level Bed Exit Alarm (optional): Advanced sensitivity detects whether the patient is lying in bed, sitting on the edge of the bed, or is out of the bed.
