The concept is simple, the rewards are priceless. Read a book (any book) to your newborn, infant, and/or toddler. The goal is to have read 1,000 books (yes you can repeat books) before your precious one starts kindergarten. Does it sound hard? Not really if you

think about it. If you read just 1 book a night, you will have read about 365 books in a year. That is 730 books in two years and 1,095 books in three years. If you consider that most children start kindergarten at around 5 years of age, you have more time than you think (so get started).

The key is perseverance. Make it exciting. When your child reaches a milestone, give him/her a small reward (stickers, backpacks, books). Most local programs already have a reward system built into place. If a program is not available where you live, join our program today. Most of all be creative!
