A MultiPartisan, ProWoman Organization

Our Mission

The goals of the Alaska Women for Political Action are to increase women's participation in the political process, to increase the number of progressive prochoice women in elected and appointed positions, to win equality for women, and to support candidates who support our goals.

In pursuit of these goals, the AWP is dedicated to ensuring reproductive freedom; achieving quality dependent care; and eradicating violence, poverty and discrimination on any basis.

Baseline Goals

1. We support the proposition that no rights or privileges of any person shall be denied on the basis of gender.
2. We support every female's right to reproductive freedom, meaning that the female, not the government, holds the right to choose whether or not to continue a pregnancy. We further support public funding for low-income females for adequate access to family planning services and supplies, including abortion-related services.
3. We support child and dependent care programs through local, state, and federal funding. We support efforts to increase the availability of quality child and dependent care services.
