

Audio/Video Equipment Available for LEMC Rental Groups

Sound in Main Auditorium/Sanctuary

We have a very capable in house sound system which includes a 48 channel digital Roland M-400 Mixers, multiple stage monitor mixes, sm58 & sm57 mics, mic & music stands and several wireless mic options.

Computer & Projection

A Windows PC and projector is available for use to project and presentations, pictures, video's etc. HDMI & VGA connections are also available at the stage and rear sound desk for connection of your own laptop if preferred.

Lighting

A variety of flood and spot lights with limited direction offer full stage lighting and are controlled by a 16 channel lighting board. Lights are only white.

Gymnasium A/V

We have a 16 channel Mackie board on a portable stand that requires setup for any sound required in the gym. Also a portable projector, stand and fixed pull down screen are available for any projection requirements.

Video Production

We have a full video production facility using two cameras, switcher etc. for a professional looking production. Events can be easily live streamed on line and recorded for those friends and relatives who cannot make it to your wedding, funeral or event.

Experienced operators are required to operate all the above equipment. For sound system only, one person is required. For full video production and additional three people are required. One person can be a volunteer that you provide to operate the 2nd camera.

If you have questions or to arrange and schedule for your event, contact Maynard Bauman at 519-895-6135 or email mbauman@norwelldairy.com
