WATER PARK EQUIPMENT

Arihant Industrial Corporation Ltd.

was established in 1985 with an aim to lead the global market with highly innovative products and services. Since then, Arihant has evolved as a leading manufacturer of Playground equipments, Water slides, Amusement equipments, Indoor toys as well as it owns and operates its own water park. Arihant has always taken up new challenges and is now enlarging new dimensions to meet and exceed the expectations of its consumers by providing innovative, user friendly and cost effective products and services.

Incorporated in 1990, Infinite Fun is the leading water park equipment supplier in India. Equipped with best infrastructure and technology, we provide quality innovative products at economical prices. Our customers include some of the best names in entertainment and amusement industry across the globe. Infinite Fun has successfully installed and commissioned over 150 projects in India & abroad and is enlarging with time.

Infinite Fun
WATER PARK EQUIPMENT

A perfect blend of fun, thrill and excitement...

The face of contemporary man has changed over a period of time. Today's man seeks thrills, fun and adventure to escape from his routine. Nowadays 'Generating Fun & Entertainment' is termed as world's most lucrative business. It is the only industry where innovation observes no barriers. Where else better can one invest, other than water slides to generate king size recreation and revenues?

Imagine a gigantic; fibre glass construction which is built to thrill, that takes away ones breath with its twists and turns. The sound of thudding heartbeats, water splashes and thrilling screams mesmerizes masses to experiment their gut, in turn contributing a fair return to your investments. Besides this, other additional revenue generators like F & B stalls, locker charges, hire charges etc also adds to your treasure box.

Reliable **Quality**

On approval of the product design, our production department equipped with the best of technicians and engineers manufactures the product ensuring the consistency in quality. A vigilant quality control department inspects the production process and ensures that it meets international standards. On completion of the job, a detailed check is done to ensure that the job is executed as per the specifications.

Innovative **Design**

We at Infinite Fun believe that, innovation is a continuous process which is the base behind our every design that starts with identification of needs and desires of the customer. Our design & development department is equipped with latest softwares like Auto CAD for 2D designing, PRO E and Solid edge for 3D rendering, which enables our experts to imbibe the highest degree of precision, ensuring safety and durability in equipments created, guaranteeing maximum excitement throughout the ride.

Safety In **Engineering**

All our slides are made up of Fibreglass Reinforced Plastic (FRP). The sliding surface consists of Neopentyl Gel Coat (NPG) which ensures zero penetration of water into glass mats. The thickness of FRP consist of six layers that include woven rowing and chopped strand mat in a sandwich pattern with Isothalic resin for maximum strength and resistance to chlorinated water. A final coat of wax is given on the outer surface for proper saturation and curing of the resin.

Description

It's a kind of Interactive water play features for spay park & kiddies pool.

ARIHANT offers large range of spray features which includes themed sprays & Animal slides.

ARIHANT products consist of Unique combination of Strength, Toughness, Fatigue resistance, abrasion resistance, low wear & low friction.

The bottom Line is better performance & long-lasting product of everyone's enjoyment.

Kids love water!

Installation Details

After the pool slab complete, the equipment is easily installed by simply setting the unit in place and marking the anchor positions. Holes are drilled, anchors are completed, water connections are made and the unit is bolted down, ready to go!

No embedded anchors or complicated foundations are required thus cutting down installation costs.

Facts & figures

- Average area of spray park is 200 Sqr Mtr.
- Capacity can be calculated as - one child per 2 Sqr Mtr spray park area.
- Age limit, 2-12 years.
- All the equipments are made of Stainless Steel which ensures many years of continued play value.
- Two years replaceable warranty for all our equipments.
- All equipments can be themed as.
