At **ZB Group**, with more than thirty years of experience during which we have carried out projects in more than 20 countries, we specialise in the recovery of ferric and non-ferric scrap metals.

At **ZB Group**, we design, manufacture and commission scrap metal recovery plants of up to 100 t/h with powers up to 4000 HP.

Our plants are capable of treating all types of metals through complete processes of shredding, cleaning, separation and classification of the different ferrous and non-ferrous materials.

Stationary Plants

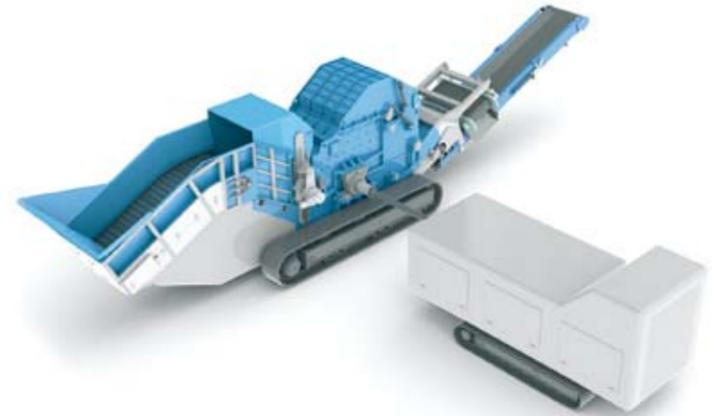

Reusing and giving new value to 90% of the input material.

Input material

Stationary plants

THOR 1721 K

Mobile Units

Mobile units for treating ferric scrap metal with productions of up to 30 Tm/h.

Input material: Light scrap metal, end-of-life vehicles, white goods, aluminium, rods, etc.

- ▶ Engines up to 2000 HP
- ▶ Generator set: integrated or independent on tracks
- ▶ Tilting ramp or metallic conveyer with feeding roller
- ▶ Ejection gate for non-crushable materials
- ▶ Diesel or electric engine
- ▶ Magnetic separation, folding conveyer, remote control, dust collection

Output material
