

JMC Recycling Systems Ltd

SHEARS

JMC 150 Alligator shear with a 150mm blade	JMC 200B Alligator shear with a 200mm blade	JMC 320 Alligator shear with a 320mm blade	JMC 407 Alligator shear with a 407mm blade	JMC 500 Alligator shear with a 500mm blade	JMC 600 600mm blade shear specially designed for shearing radiators	JMC 4000 EU Rated shear with 407mm blade	GLOBAL Fully guarded shear with 508mm blade	JMC 640 Alligator shear with 640mm blade - Also available the 640-240T with a cutting force of 240 Tons	JMC 900 Alligator shear with 920mm blade
--	---	--	--	--	---	--	---	---	--

Diesel engines and solenoid operated control available on selected shears and other electrical requirements available on request. Please ask for details.

METAL BALERS

2035 355mm by 200mm Bale Size and 40T compression force	5025 SB 500mm by 250mm Bale Size and 50T compression force	5025 BF 500mm by 250mm Bale Size and 80T compression force	5025 Automatic 507mm by 254mm bale and 80 Tonne Compression force	Terminator Baler/Shear with a 500mm by 250mm Bale size	Hippo 6140 Baler/ Yard Shear with a 160 Tonne Compression Force
---	--	--	---	--	---

Machines are either single or three phase and varied Tonne forces - Please ask for more details

ALUMINIUM, FOIL AND CAN PROCESSING EQUIPMENT

RDI Mini Bale 164mm by 164mm Bale Size 110kg per hour	M10 Can Baler 280mm by 280mm Bale Size 650kg per hour	M20 Can Baler 280mm by 280mm Bale Size 1000kg per hour	New Metalican Specification to be confirmed	Alpacc Can Sorter Can sorter which will process 1000kg to 2000kg per hour
---	---	--	---	---

CABLE STRIPPERS

TT 2000 Strips cable from 3mm to 75mm thickness (240v)	Euro-Strip 1000 Strips cable from 0.7mm to 25mm thickness	Euro-Strip 3000 Strips cable from 5mm to 54mm thickness	Euro-Strip 5000 Strips cable from 6mm to 101mm thickness	Revolve Removes the steel core from ACSR steel cable	Addax Strips lead covered or SWA Cable
--	---	---	--	--	--

CABLE GRANULATORS

MONSTER EVO Suitable for fine hair wires Production rate 60-80kg/h	MATRIX 150T Suitable for fine hair wires Production rate 250kg/h	Matrix 220T Suitable for fine hair wires Production rate 350kg/h	Matrix 220TXL Suitable for fine hair wire and thick copper cable. 1000kg/h	Matrix 220VZT Complete with pre-shredder and conveyor. 500kg/h	Matrix 380VZT Complete with pre-shredder and conveyor. 1000kg/h
--	--	--	--	--	---

Even more Matrix models are available from JMC - Please ask for full details

JMC Recycling Systems Ltd

CAR RECYCLING AND DE-POLLUTION EQUIPMENT

CAR Balers 5m & 6m box Lengths. Available without crane and control cabin.	CAT Recycling Units 	CAT Shears Purpose built for the removal of catalytic converters	CAT GUILLOTINE 	Loominator Purpose built for the recycling of car looms and harness wire	Engine Cracker Crack engines with 124 tonne force. 3 - 5 tonne per hour
--	--------------------------------	--	---------------------------	--	---

CASTING MACHINES

Dolphin Production Rate: 1,000 - 2,000kg per hour	Orca Production Rate: 5,000 - 6,000kg per hour	Leviathan Production Rate: 3,000 - 7,000kg per hour	Pegasus Production Rate: 5,000kg per hour	Centaur 6mm - 10mm diameter granules without tails. 750kg/h
---	--	---	---	---

All of our Ingot Casting machines and ingots can be custom built to meet your individual needs - Please ask for details

SHREDDERS

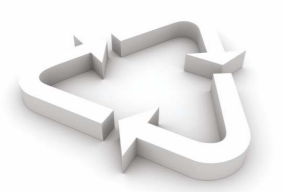

WS 5 Smaller machine with output size from 15 - 50mm	WS 11-15 Single shaft shredder with a capacity of up to 500kg per hour	WS 22 Single shaft shredder with a capacity of up to 800kg per hour	WS 30 Single shaft shredder with a capacity of up to 2300kg per hour	WS 50 Single shaft shredder with a capacity of up to 3000kg per hour	WS 70 Single shaft shredder with a capacity of up to 4000kg per hour
--	--	---	--	--	--

OTHER EQUIPMENT AVAILABLE

VORTEX De-pollution 	Container Tilters 	Gusella Equipment 	Drum Crushers 	Mobile Cutters 	Lukas Cutters
--------------------------------	------------------------------	------------------------------	--------------------------	---------------------------	--------------------------

Idromec Shear Balers 	Tabarelli Material Handlers 	Magnets 	Metals Analysers
---------------------------------	--	--------------------	-----------------------------

For more information on any of the equipment available from JMC please ask for details.
