ABOUT US

Precision Learning, LLC (formerly known as Exeter Speech Language & Education Associates) is an association of experienced professionals including regular and special education teachers. Our staff are trained in maintaining and monitoring effective progress tracking. We provide individualized services to meet the learning and/or communication needs of children, adolescents and adults in the areas of reading, spelling, writing, mathematics, language and organization. We have been working together since 2003 to provide tutoring and related one-on-one services during both the school year and the summer.
