# About Erik and our *NEW* area

With over 35 years of experience, since he was in his early twenties, Erik has hunting and fished all of the Americas from The North Pole to the Patagonia. Erik was one of, if not the best outfitters in Colombia for dove hunting in the 70s and 80's and has since guided sportsmen in Bolivia and Paraguay which he still has a pigeon operation in.

Both Erik and Stafford Adventures are excited to inform you of his new and unique fishing operation in the jungles of Colombia called Las Lagunas Fishing Glamp. This new operation is very close to where his father Kjell von Sneidern established the first world records for Peacock Bass in the late 70's on their "Arc of the Orinoco" floating fishing lodge.

With the new treaties with the rebels, Erik's and his new "Glamping" camp will be fishing areas that have been untouched for over 20 years for some GIANT Peacock Bass. There are many lagoons in this area that no fisherman has ever fished and where fish have never seen an artificial lure.

Over the past ten or years everybody has been crazy about going to the Rio Negro in Brazil to catch some of this incredibly strong fighting monsters, but very few people ever noticed that the Rio Negro is born in Colombia in the GUAINIA Department which is very close to where we have be called a FISHING GLAMP our New “Las Lagunas Fishing Camp or “Glamp” which it is actually as every fisherman will their own private tent complete with bed and sitting area. Erik and his lovely wife, Ana Maria will personally take care of you in this 6 day adventure fishing trip. If 6 days of fishing is too long, no problem as we easily can shorten the trip to three days and even add days if you desire more incredible fishing time on the water!

We just arranged exclusive rights from the local tribes to the area a month ago, and even without it being in the ideal low water level conditions we caught numerous Peacocks and lost some Monsters as we were fishing in trees where the big fish were lurking! While we honestly have no recent pictures to show of big fish being caught, the natives talk about 30 pound peacock bass and I have seen photos of a Colombian fish that was weighed at 30 pounds but unfortunately it was speared and not caught on a rod and reel. Look for many records to to be broken in the first couple of years! Payara's? We have plenty of those as well but again, this area has not been fished in years and I am sure with amount of rapids and fast moving water in the drainage, we will be make headlines for catching monsters of these toothy fish as well.

# The Trip!

The following is a typical 3 day fishing day, extra days can be added and the trip can be customized to fir your groups needs

**Day 1** Arrival into Bogota, Met and transferred to a Hotel. Rest of day and evening open to exploring the City.

**Day 2** Early morning transfer to the airport for your commercial flight to Puerto Iniridia, the fishing area. Once you arrive Erik or one of his staff will meet you and transfer you to the fishing camp by swift boat. The rest of the day is open to fish or just relax and get acclimated to the surroundings.

**Days 3, 4 and 5** These are full fishing days. After a hot breakfast you are off to catch the might peacocks. Depending on where you are fishing and groups desires, you will either return to the camp for lunch or we will send lunch with you.

**Day 6** Depending on your flight schedule, you can fish a little in the morning before returning to Puerto Iniridia for your flight back to Bogota. You will met again at the airport and transferred to your hotel where you will have the rest of the evening to enjoy Bogota.

**Day 7** This morning you will be transferred back to the airport for your flight back to the States.

# The Accommodations

Las Lagunas Lodge consists of Six (6) 10 x 20 **Single Occupancy** guest tents all with private decks and Full Sized beds. We even have fans and electricity for those who need to charge their batteries or use CPAPs!

The Main Lodge has a dining and gathering area along with a open bar and TV so everyone can upload their photos of the day or watch videos. The Bathrooms are in a separate area with two flush toilets, two showers and two sinks.

The trip fee is \$2795.00 for the 7 day, 6 night adventure  
with **THREE FULL DAYS** of fishing!

(Additional days are \$550.00 per day)

the two potential half days are at no additional charge.

The package includes all transfers as mentioned in the Itinerary, two nights accommodations in Bogota (double occupancy), round trip air from Bogota to Puerto Iniridia, all fishing licenses and permits, 4 nights at the Las Lagunas with SINGLE OCCUPANCY, all meals and limited open bar with beer, rum and wine at the lodge.

Not Included are your meals, drinks and activities while you are in Bogota other than breakfast the last morning at the hotel, your flights from the States to Bogota, Gratuities, phone calls and items of a personal nature.

Fishing equipment is available on a limited bases so we strongly suggest that you bring your own tackle and lures as we are still building up our inventory. Eventually we will have a fully stocked pro shop but again, you are better off bringing your own lures as selections on hand can change rapidly at the camp. We will send out a suggested list of tackle before your trip as well as a update on what's hot and not.
