1/2006-7/2014 UPMC WorkPartners, Pittsburgh, PA

Safety Manager

OH&S subject matter expert and service provider for over 60 UPMC self-insured business units. Analyzed gaps, created metrics and promoted change with business unit leaders in all matters of their employee safety management program.

Spear headed movement to reduce musculoskeletal disorders for nurses by advocating development of safe patient handling programs in all hospitals and senior communities' facilities. Several entities experienced greater than 40 % decrease in musculoskeletal injuries.

Integrated safety management operations with return to work, claims management, short-term disability, leave management, wellness and data analytics to create positive impact for a business unit culture and bottom line.

Assigned as Safety Officer for Community Provider Services (17 senior communities and large home health provider). Conducted gap assessment, developed strategic plan, and obtained executive support to execute. Chaired the executive safety steering committee that created programs and momentum resulting in a 68% decrease in the OSHA severity rate.

8/00 to 1/06

City of Pittsburgh (via Allegheny General Hospital), Pittsburgh, PA

Safety Manager

Earned credibility among colleagues and City Administration while being recognized as a leader who can drive change, create and direct strategy and accomplish goals.

Conceived and implemented the first citywide safety policy since 1987 and led an accountability movement within individual departments to address injury prevention and integrate safety into daily operations. Implemented targeted programs that reduced injury frequency by 28% and injury severity by 57% over a five-year period.

Provided comprehensive oversight of the city's workers' compensation program resulting in improved management, reduced number of claims and reduced cost.

Partnered with nine different labor groups to improve safety awareness, decrease costs and save jobs.

2/97 to 8/00

Sony Electronics Corporation, Mt. Pleasant, PA

Safety and Health Coordinator

Coordinated all safety initiatives and developed/implemented programs that achieved visible employee involvement and an OSHA TRIR of 50% below the industry standard.

Conducted plant-wide compliance audits, job safety analyses, ergonomic assessments and incident investigations in addition to supervising the Occupational Medicine Department.

Designed and delivered required safety training including: contractor safety training, lockout tag out, hazard communication, lead and other hazardous metals, confined space entry, forklift operation, and bloodborne pathogen awareness.

Created/managed all emergency action plans and training/drill requirements in addition to supervising the respiratory protection program and the lead-silica program.

Appointed the ISO 14001 Certification Coordinator.

7/90 to 4/96

Allegheny County Health Department, Pittsburgh, PA

Environmental Health Specialist II

Responsible to the public for the implementation and compliance of solid and hazardous waste regulations, Clean Air Act, Clean Water Act, Pennsylvania School Code, housing regulations, food regulations and public bathing place regulations.

Conducted hundreds of investigations of public health hazards to determine the source and communicate compliance requirement to municipalities, private citizens and public education personnel.

Served as a liaison to promote department policies to community groups, school boards, government agencies, business, industry and the general public.
