

Kristen Warnke Award

Kristen Warnke was a 1998 graduate of Northville High School. She was a member of the Northville Girls Swim and Dive Team and served as captain of the team in her Senior Year.

Kristen was killed in a tragic boating accident in the summer of 1998. This award has been created in her memory.

The award is voted on by members of the Northville Girls Swim and Dive team each year since its inception in the Fall of 1998. It is presented to the winner at the annual Team Banquet.

The following is what her father, Dale Warnke, has to say about Kristen and the type of girl he feels should be awarded this honor each year:

“Kristen was a remarkable young lady. She was a hard worker in all that she attempted. Kristen demanded a lot of herself and others. She had compassion for people and celebrated her successes as well as others. She was a humble person and did little to put herself in the spotlight. She was an excellent student and worked hard academically. She loved swimming and her team and was outgoing and cared about each member of the team.

We would hope that the winner of Kristen’s award each year will embody these qualities as well.”
