Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

Premier Retirement Planning Group, LLC urges clients to understand “Investing in securities involves risk of loss that clients should be prepared to bear.”

Premier Retirement Planning Group, LLC’s experience and fundamental belief is consistent with the findings of Brinson Beebower research detailed in “Determinates of Portfolio Performance”. This research suggests that the decision to allocate total assets among various asset classes will far outweigh security selection and other decisions that impact portfolio performance. Premier Retirement Planning Group, LLC has adopted Free Market Portfolio Theory and French & Fama’s Three Factor Model and implements this by using Matrix Asset Allocation (a subsidiary or Matson Money) for the prudent investment of stocks, bonds, and cash.

Asset allocation has proven to have the greatest impact on our client’s investment performance over time. Rather than make recommendations on individual investments, Premier Retirement Planning Group, LLC will focus on proper diversification and asset

allocation to enhance the probability of success given a client's unique goals, investment time horizon, degree of risk tolerance, and financial condition.

Premier Retirement Planning Group, LLC employs the services of asset class or structured funds to focus on efficiently capturing market returns, diversify prudently, and eliminate traditional investment strategies like market timing or track record investing. We consistently review the results of managers, other firms, and products that are chosen, to assure confidence in their process and results.

Every attempt is made to help the client understand the relationship between risk and return. We want to assure that the portfolios utilized will have the appropriate amount of growth potential while helping create adequate downside protection when and where appropriate.

All investing involves risks and costs. Premier Retirement Planning Group, LLC will provide the client with information about the risks and costs associated with specific programs. No investment strategy (including asset allocation and diversification strategies) can ensure peace of mind, assure profit, or protect against loss. *Investing in securities always involves risk.*

Premier Retirement Planning Group, LLC and any client will put in place an Investment Policy Statement. This document will outline a client's investment objectives and sets forth options that may help the investor achieve his or her objectives.

Premier Retirement Planning Group, LLC will not take title to any assets nor shall Premier Retirement Planning Group, LLC exercise discretionary control over any of the client's assets. The adviser shall be responsible only to make recommendations to the investor and to implement investment decisions as directed by the investor.

We are not investment advisers to any investment company, so we will not solicit your investments for such.

On occasion, Alan Halka may buy or sell securities that he recommends to clients. There is no conflict of interest as the securities are widely held and publicly traded. He is too small an investor/adviser to affect the market. He places client's interest before his own interests.

Item 12 - Brokerage Practices

Premier Retirement Planning Group, LLC selects custodians based on overall costs, reputation, dependability and compatibility with our clients.

Premier Retirement Planning Group, LLC does not engage in "directed brokerage". That means we don't recommend, request, or require that you direct us to execute transactions through a specific broker/dealer. If we did, that may cause you to get unfavorable executions of trades, costing you additional money.

As an Adviser and Insurance Agent, Alan Halka may be eligible to receive various incentives that may be based upon production levels on certain products. These incentives may

include marketing reimbursements, educational conference trips, or discounts on various software or materials.

Item 13 – Review of Accounts

Premier Retirement Planning Group, LLC is available, on a reasonable basis, for telephone communication when needed. Clients are encouraged to call for reviews anytime their personal or financial situation may have changed (divorce, retirement, inheritance, etc).

Financial Planning accounts are reviewed annually. The calendar is the triggering factor. There are no different levels of review. Accounts at money managers are reviewed when the applicant receives their statements, usually quarterly. Reviews are done on a portfolio analysis basis.

Premier Retirement Planning Group, LLC does not prepare regular client reports. Your custodian sends you account statements, transaction confirmations, all applicable tax documents, required minimum distributions from qualified plans, and proxy documents, which includes ballots and any communication from public companies. In addition, you also receive statements from any mutual funds you may own and other money managers you may utilize.

Item 14 – Client Referrals and Other Compensation

Premier Retirement Planning Group, LLC may also compensate other professionals directly for client referrals. There are currently no such agreements in place. Should this type of arrangement take place, Premier Retirement Planning Group, LLC and the referring party will enter into a solicitation agreement. This relationship and arrangement would be disclosed in advance to any referred client.

Premier Retirement Planning Group, LLC does not get any economic benefit from a non-client for providing certain advice to clients.
