## Racing Scene

“Racers.....start your engines!” A new group of drivers is ready and raring to go after attending Don Angerth’s driving school. The feedback was excellent, and drivers are ready to roll. Another part of this year’s school was the Corner Worker training. Thanks to Gene Gau and Don for their instruction, and thanks to all of the new corner workers who are helping the drivers. In the past, many drivers would have to also work as corner workers, making a very hectic schedule. If you are interested in helping, please see Don or Gene.

Are you ready for the fast track? The lead car on this controlled lap is none other than VP Ray Kennedy. He took his car to the fast track at Iowa Speedway for high speed thrills. Here are a few shots.

## Veterans Honor Flight

By Bill Cashell

Patriotic Productions is a non-profit 501C3 organization, founded by Bill & Evonne Williams of Omaha, who have a desire to honor the United States military and share that opportunity with others who wish to do the same. Patriotic Productions organized and raised funds that have taken 1,500 Nebraska World War II Veterans to see their World War II Memorial in Washington D.C. in 2008-09. In October, 2013, 135 Korea War Veterans enjoyed an Honor Flight to Washington D.C. and in March, 2014, 462 Korea War Veterans were flown by private charter jets on their Honor Flight. On June 6, 2016, 502 Vietnam Veterans from 180 Nebraska communities were flown to Washington D.C. for a trip that included a ceremony at the Vietnam Wall. This year's "THE FINAL MISSION" on May 1<sup>st</sup>, took 653 Vietnam Veterans on four planes to Washington D.C. for the day. Thousands attended the Welcome Home that evening at the Lincoln Airport. It was the largest group of Vietnam Veterans from one state to ever visit the Vietnam Veterans Memorial Wall.

The event started Sunday, April 30 with several activities scheduled at the LaVista Convention Center. For the second year in a row, CCC was invited to display patriotic Corvettes at the entrance of the Convention Center.

Two CCC members, John Beaver and Bill Cashell were included in this year's group of Veterans. They attended the pre-flight dinner with wives Nancy and Kathy, which was hosted by Patriotic Productions.

The evening included speakers Bill & Evonne Williams, Governor Pete Ricketts, along with the director of the Vietnam Wall Memorial, a second generation victim of Agent Orange toxic poisoning and a Bob Hope impersonator.

The evening ended with a solemn note, showing the names of all Nebraskans who died in Vietnam.

The next morning, buses were loaded at 2:00am for the flight to Washington. With rain and 37 degree temperatures, it hardly seemed like May Day. It turned out to be a great day to be in Washington with sunshine and 83 degrees there.

We were welcomed to Reagan Airport by hundreds of greeters. This was totally unexpected and very gratifying. The first stop was the Lincoln Memorial for group pictures. After that, it was a short walk to the Vietnam Wall.

The Vietnam Wall is different than all of the other war monuments. Every person who died in the conflict is listed on the wall. It is very personal. Most people our age know someone who is enshrined on the wall. When you actually see the name and touch the wall, you feel a connection to the spirit of that person.

Many people trace the names of people on special paper that is available there. In an eerie twist of coincidence, John was asked by a friend to trace the name of Don Buckles, who was my high school friend and classmate.

Our visit to Arrington Cemetery was almost spiritual. We were able to watch the changing of the guard at the Tomb of The Unknown Soldier. It was a ceremonial change in quiet solitude as over 100 of us watched in awe. I say "in awe" because this happens exactly the same way in the middle of the winter at midnight when no one is watching.

The Tomb of the Unknown Soldier is guarded 24 hours a day, 365 days a year, and in any weather by Tomb Guard sentinels. Being a sentinel there is a great honor and they go through a rigid selection process. If you want to know more, [CLICK HERE](#).

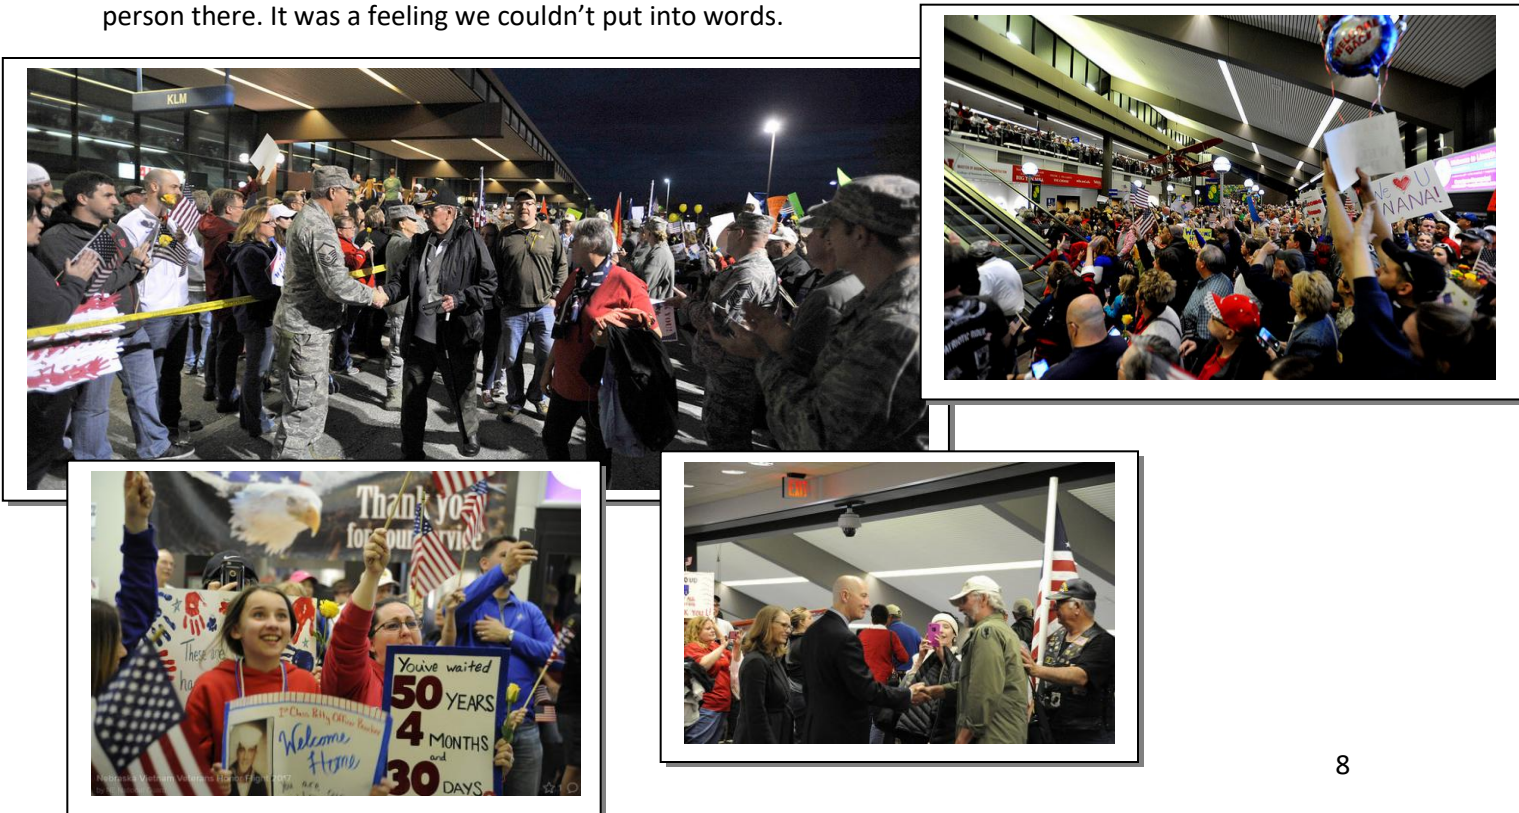

As we were leaving, we had to stop our bus to allow a funeral procession to pass. This was a rare occasion of a horse-drawn procession, which we were told is reserved for high ranking military personal.

From there, we visited the WWII, Korean and Iwa Jima Monuments. It was inspiring to realize that we part of something so much bigger.

The highlight of the entire trip was the welcome home. The sight of 7,000+ people at the Lincoln Airport was overwhelming. We didn't want it to end. If we could, we would have shaken hands with every person there. It was a feeling we couldn't put into words.

## **The World of PR According to Ray**

By Ray Zimmerman - Public Relations Director

As we approach the end of Spring, dusting off our Corvettes and preparing for the summer season ahead of us, I realize what our club has meant to Nancy and I over the years we have been members. We have met some wonderful people who have been so gracious in welcoming us into this amazing Corvette family. We have been having so much fun with all the activities and cruises that are planned each month, we seldom have time for anything else. I personally have never been involved with an organization with so much energy.

Moving forward to 2017 as the elected Public Relations Director, it has been a real treat meeting all of the contributors involved with the club and working with them in getting to know our club members and the services they offer. Our “meet and greets” at our contributor’s restaurants seem to very popular with the club and the fine restaurants we visit. Most cannot believe the support from our club, as we can have from 30 to 50 people attending. Several of our most popular contributing restaurants like Smitty's Garage now want our club to do a car show, which we will be planning. Moving forward, I must remind myself that life is a great thing – especially when you have such great friends along for the ride.

## I CAN'T REMEMBER

When Bill asked me to submit a bio for the newsletter I laughed and told him when you get my age you are lucky to remember your name let alone what you have been doing for the past xx years. He smiled and said he also suffered from the same problem of the aged; CRS. I told him I would figure something out and get back to him soon. Don't know if anybody will be interested in it but I would try.

Growing up in Ohio in the 50s and 60s was quite different than what the kids do today. I went to school from 8:00 to 4:00 five days a week from Labor Day till Memorial Day. I was what you might call a jock in junior and senior high school playing about 4 sports. Not really good at any of them but it was something to do and fun. I worked my way through High School and bought my first car, a 53 Chevy, when I was 15. I was what you would call an average student, mostly B grades with a couple As in things I liked. When it came time to graduate I decided my best bet was to go into the military and since I was draft eligible and didn't care much for the Army, I enlisted in the Air Force in 1960.

Going into the Air Force was one of the best decisions I have made in my life. They tested me to find out what my aptitudes and abilities were and started me out on a wonderful journey that lasted 20 years and I still recommend the military life to those that can adapt to it. After basic training, I was off to Weather School in Illinois where my enlisted training began. I spent the first 10 years as a Weather Observer/Forecaster in numerous places around the world. Oklahoma, numerous islands in the South Pacific, countless Titan missile bases in the west and southwest and 3 years in SE Asia. When I returned to the US in 1969 I got stationed at Offutt AFB in Bellevue NE.

Once I arrived at Offutt I began a new phase of weather training, as all the observing and forecasting positions were being converted over to computer positions. My new duty title was Weather Computer programmer observer/forecaster. I spent the next 12 years at Offutt (once you get Offutt, you can't get off it) and retired with 20 years' service in 1980.

Upon retirement, I went to work for Sperry Univac and continued working in the computer related weather field, took some advanced training classes and earned an associate degree in computer technology. I spent another 13 years with a software company in Bellevue working mostly in Quality Assurance in their software and documentation division. After about 40 years of wearing uniforms and suits and 40 and 50-hour work weeks I decided to retire that life in 2000.

Some other interesting things happened in the preceding years that are related to my story. In 1973, I bought my first Corvette, a White 74 T top which I drove every day for 17 years. Had studded snow tires for winter and never had a problem getting back and forth to work on the base. Since then I have owned a red 1990 Convertible, a White 1992 Coupe, a Black 1994 Convertible and a Silver 1996 Coupe.

We still have the 94 Black convertible which has just over 50K miles and still looks nice and is fun to drive.

You might have noticed that I just said “We” while talking about the Black Convertible. During that last time frame I met a wonderful controlling feature in my life my wife Trudy. We met while both in the Air Force in the early 70s, got married in 1977 and it has been a great 40 years. A few bumps in the road from time to time but like riding a bike, once you learn you never forget, you just get back on and pedal harder.

Trudy has recently found her place in life is to rescue Puppy Mill/abused dogs and give them the life they have been denied. She rescues abandoned dogs from shelters, and from puppy mills where they have been forced to live in horrible conditions just to provide the cute little puppies you see in the pet stores. If you adopt a dog from a shelter and don’t shop in the pet stores, hopefully in time it will put the puppy mills out of business as they will have no place to sell their puppies. Trudy says thank you very much for all your support and keep up the good fight, “Adopt Don’t Shop”. I will get off my soap box and come back down to earth.

In 1992, we joined CCC and have enjoyed 25 years of activities with all the CCC family we have met over the years. We both competed in the racing activities in the early years of our membership but once Trudy started to outperform me from time to time I decided I could help the club more by working the activities and give those that do compete more time with their activities. Trudy has moved on to her activities with the dogs and we support each other’s decisions.

I got talked into running for a CCC office in 1995 and was honored to serve as VP in 1995. While in the VP office I converted the CCC Activities Points program from pencil and graph paper to Lotus 1,2,3 to its current automated process in Microsoft Excel. I also split the Points activity from the duties of the VP and am still running the Points Chairman appointment now. I enjoy doing the CCC Activity Points since I am what you might call the Father of the current process. I would like to at least have somebody to serve as a backup in case I can’t perform my duties and perhaps teach a future candidate the ropes to become the Points Chairman and perhaps even have the VP resume the activities of Points Chairman.

Well I think I have rambled on and on and on long enough. As I stated in the beginning when I started this I have CRS and from time to time I forget what I am talking about so if you couldn’t follow my train of thought, join the club. I was lost when I started.

Thanks, and “Save the Wave”

JB

**Corvettes:** 1988, 1998 and 2012 Grand Sport

**Favorite Vette Fun:** Any activity with Corvettes and their owners.

**Kathy says:** Treat everyone with kindness. Every person brings a special and unique gift to the world.

Hi! I'm Kathy Brisbois, the recently elected Parliamentarian for NCCC.

Just what do you do? I have heard that question a lot recently. In NCCC, the Parliamentarian acts in an advisory capacity to the president regarding the proper conduct of any meeting. The Parliamentarian also serves on the Regional Executive (RE) Committee. This involves setting the committee meeting agendas, and ensuring minutes of the meeting are sent to the secretary for distribution to all governors. The Parliamentarian also reviews and researches Robert's Rules of Order concerning parliamentary procedure when needed. The RE's are elected by the governors in their region.

The RE committee is responsible for the review of the By-laws as well as research and respond to any inquiries regarding the By-laws or the Standing Rules. As a committee, they are responsible for updating the By-laws. The Chairman is responsible for getting a copy of the current By-laws for the rulebook.

The newsletter contest is judged by a panel of RE's. This panel submits their tally of all the newsletters to the Parliamentarian and she presents the awards to the top clubs at convention each year.

RE's also carry proxies for all governors from their region that are not able to attend the board of governors' meeting. Any issues coming on the floor at the meeting are voted on by the governors present and the proxies held by the RE's. Many of these issues are discussed at the Friday night meeting of the RE committee.

## Message from the President

**Kevin Reit**

Our social committee continues to do an outstanding job of offering every kind of get together you can think of. From car shows, to parades, to

cruises, they all seem to either start or end and sometimes both, at a restaurant. This gives us a great opportunity to get to know one another. We talk about our cars, our travels and about anything else that comes up. I have enjoyed some great laughs on many of these occasions.

I have been given the opportunity to get to know some great people. I have seen their generosity, compassion and fun loving spirit. Some Cornhusker Corvette Club members are only able to attend the meal and the conversation. Whatever your schedule allows, we enjoy the time together.

The restaurants we go to provide us with a space where we can sit together and they also offer some great food. Jayne and I enjoy the club members and the food. But I was remarking to Jayne that I may have to change shirt sizes to XXXXXXXXL. American Tent and Awning may have to become my tailor. But she says she has some projects around the house that will help me work off some of the extra pounds.

This summer will have a lot of socials in store. There will be many occasions to share a story and a meal. Everyone is invited to join in. Even if you gain a few pounds, just think of all the fun we can have. Look forward to talking with you sometime this summer!

Your President – *Kevin*

## Message from the Social Directors

**Bob Edmundson & Kathy Cashell**

May was another mixed bag of weather for events; however, the Vettes for Vets Car Show May 6th was a great day to celebrate with Ron Hernandez on the ribbon cutting of his new storage facility for Moving Vets Forward. A Meet & Greet at the Surfside Club on May 23rd was also very well attended and we had a great time despite a cooler and slightly rainy day! We'll try to plan another one there on a sunny day so we can eat outside & watch the boaters!

Our first social trip for 2017 is June 10<sup>th</sup>; we're heading to Seward, NE to see the Nebr Nat'l Guard Museum and Bottle Rocket Brewery close by. We'll then head to one of our club favorites - Chances 'R' in York, NE for a prime rib buffet. A Meet & Greet at Cascio's, one of our long time contributors, will be on June 28th.

Next month we have a busy day July 29th with the Gretna parade in the morning and the Stormchasers game that night. We have a limited number of tickets (\$10 ea) for the game and if you've already signed up, we do need those paid for by the June 15th general meeting. If you haven't signed up and would like to attend, please let us know ASAP so we can see if more tickets are available.

For add'l details and updates on these socials and other club events check out the "Events Calendar" on our CCC website ([www.cornhuskercorvette.club](http://www.cornhuskercorvette.club)) as well as the "What's New" section just below the calendar for ALL updates. *Kathy & Bob*

## Message from the Webmaster

### Bill Cashell

I can't believe it is already June and I am half way through my 3<sup>rd</sup> year as newsletter editor. Did I mention that it will be my last year as editor? We are only about 4 months away from nominations for next year's Board of Directors. I encourage everyone consider either volunteering for a position or offering to help. Jan Richardson has been helping Chris Tooker with Membership duties. You don't have to be on the BOD to help out. It makes the work so much easier.

One of the things I have been doing as Webmaster is shifting more information about upcoming events from the newsletter to the web. This allows us to update things as they change instead of monthly in the newsletter.

To see the latest information as soon as it is available, please go to the News and Events tab. We will update the calendar and post messages under "What's New".

I will be putting more documents on the website this month on the Club Information tab. Any other club information that does not change will be posted here.

*Bill*

## Did You Know?

**There actually was a 1983 Corvette!**

You never see any listings for used 1983 Corvettes because there was no 1983 Corvette. At least, not as a production model.

Chevrolet skipped the 1983 model because development of the C4 took longer than expected, and they chose to introduce it for the brand new 1984 release. Although they built 44 prototypes in 1983, only one of them survived. The remaining 1983 prototype Corvette was displayed at the National Corvette Museum in Bowling, Green, KY.

Chris has prepared an updated Roster for those who are interested.

Bill Cashell, Webmaster and Newsletter Editor, encouraged members to write articles about where they have been for the Newsletter. Birthdays are back in the Newsletter.
