Planes, Cars & Kids

By Bill Cashell

The SAC Museum called their October event “Planes, Trains and Autos”. They were a little short on trains (an electric train was set up) but there were plenty of planes and autos, which included about a dozen entries from the Cornhusker Corvette Club. The event lasted 2 days – Saturday and Sunday. The highlight Saturday was the kids, dressed in their costumes, and Trick-or-Treating from 10am to 2pm at different stations around the museum. They had a great time getting lots of candy as well as checking out all the cars and planes. Spiderman and Wonder Woman were there as well and we had 1236 people attend the event. On Sunday, we just had the car show and only 498 people attended this event.

One thing that was missing at times was the supervision of some of the parents. Some of the curious children ventured into a few cars, in spite of the “Do Not Touch” signs that were displayed on the cars.

The SAC coordinator did suggest that we be by our cars when the children were there. Most agreed that it was a fun time and we look forward to attending next year. One suggestion for the future is to have ropes or plastic chains around the cars to keep the tots from touching or trying to get into the cars. Electric fences and barbed wire are another option that a few members suggested, although that might be a little extreme.

Summer Festival Flashback

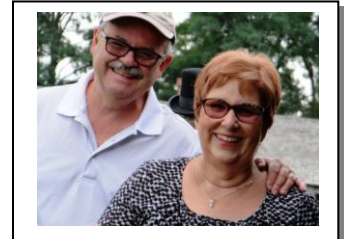

Autumn in Nebraska

It started as a possible rain-out for a day of outdoor fun in the fall. Just before noon, the clouds parted and the autumn sun came out for a beautiful afternoon in Nebraska. The warm weather kept the fall colors from their usual display for the first weekend in October, but we were treated to a summer-like afternoon for an outing.

The first stop was Fort Atkinson, in Ft. Calhoun. The fort has been carefully restored by hand after unearthing old footings and following old drawings and photos of the original fort. All of the hinges and hardware have been fashioned by hand in the working blacksmith shop. The first weekend of each month from May through October, the fort features a living history reenactment. Volunteers dress in the clothing of the period and tell visitors about life in Ft. Atkinson at that time. Watching the blacksmiths is really fascinating, as they forge nails and hinges with an old bellows-fired furnace and hammer with anvil. To make sure we were awake, they fire off an old cannon every hour on the hour.

After the self-guided tour of the fort, it was off to the Surfside Club for their famous corn fritters and other delicious tidbits. Some people even avoided possible dehydration by sampling the beer at the outside bar. After all, eating is one of the things we do best.

SUMMER TIRES

By Ron Hughbanks

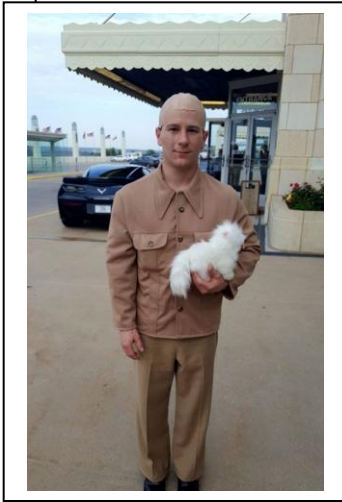

Summer tires for Z06 (and similar Corvettes). After some discussions with people much more knowledgeable than I regarding the “care and feeding” of summer tires, I made a short summary of some of the key issues I thought you might find of interest:

- 1) Summer tires should not be used below 44 degrees “F”.
- 2) Most summer tires come brand new with only about seven and one half thirty seconds of an inch of tread.
- 3) Summer tires lose approximately 30% of their grip (traction) when the temperature reaches 50 degrees “F” (the colder the temperature gets, the more traction that is lost and the harder the rubber gets).
- 4) Summer tires lose about 30% of their grip when the tread depth gets to four thirty seconds of an inch or less (regardless of temperature).
- 5) Summer tires are typically replaced when they reach approximately three and one half to four thirty seconds of tread depth.
- 6) Summer tires should always be replaced when they reach two thirty seconds of an inch of tread depth.
- 7) Although manufactures such as Michelin have developed all weather low profile tires like those on our Corvettes, so far, no manufacture has developed an all weather tire for the larger rear tires of the Z06.
- 8) To date, Michelin has not issued a product number for all weather tires for the larger rear tire size; because of this, Tire Rack does not expect that such a size tire will be available this year.
- 9) Several manufactures (including Michelin) do make all weather tires for the small size tire on the front of our Corvettes, but obviously, you need the back tires as well before change to all weather tires.
- 10) The size of the back wheels on our Corvette (Z06, etc.) is large enough that going to a smaller tire for all weather on the rears is not an acceptable solution.

FUNFEST COMING TO NEBRASKA

Mid America Motorworks & Harchelroad Motors Announce 2018 Funfest in the Midwest at Motorsports Park Hastings Yager and Harchelroad Families team up for Corvette weekend at the track

Imperial, NE. Corvette-Chevrolet dealer Harchelroad Motors in Imperial, Neb. and Corvette aftermarket parts and accessories

manufacturer, Mid America Motorworks in Effingham, Ill. are teaming up to present Corvette enthusiasts with a weekend designed for experiencing all years of Corvettes to their fullest. From car shows and track events to live entertainment, June 1-3, 2018 promises to be three full days of high-octane excitement at Motorsports Park Hastings, in Hastings, Neb.

It's no surprise that Harchelroad Motors and Mid America Motorworks have come together to create Funfest in the Midwest. Both companies are family owned - with Mike and Laurie Yager at the helm, along with their sons Michael Jr. and Blake Yager- Mid America Motors is fueled by a combined 75 years of experience in the Corvette aftermarket. Likewise, Harchelroad Motors' four generations of fun-filled sales and service means that they've been keeping Corvette, Chevrolet, and Buick drivers on the road for 86 years, all while offering over 200 brands of farm machinery to customers near and far.

"Once we started talking about this idea, I knew it was an opportunity we wanted to pursue," Yager said. "Sid and I have knowledge and expertise to share with enthusiasts and Corvette Clubs from all over the USA, especially the Midwest. In return, they get to enjoy the social aspect of the hobby without traveling too far from home - what can be better than that?"

The June event will take place at Motorsport Park Hastings (MPH), a first-class, 2.14-mile road course. Named one of the top 10 places to speed legally by Forbes magazine, this course was designed by Alan Wilson as well as reviewed and approved by renowned racetrack consultant Martyn Thake from the SCCA.

Sid Harchelroad, along with son Dillon and brother Brian, all promise the event to be an impressive one. Participants can expect to experience competitive racing with NSAA Corvette race teams, car shows, parade laps, novice laps and race school. Additionally, many major Corvette vendors will be on-site for demonstrations and seminars. There will be Dj entertainment and a banquet on Friday night. The Long Run Band will perform on Saturday night in Hastings at the fairgrounds too! "This is going to be a big event for MPH and the surrounding communities," says Sid Harchelroad!

More details about the MPH Hastings Corvette event will be added to the Funfest Events website at www.harchelroadmotors.com or www.corvettefunfest.com as they develop.

*****This event will be very popular, and hotels are already filling up. Gene Gau is reserving a limited number of rooms for our club. If you would like to attend, please contact Gene ASAP to reserve your room.**

One Man's Bucket List

by Allen H. Sohl

Palmer and I were eating breakfast at Village Inn. As often happens, I was talking about Corvettes, and Palmer was patiently pretending to listen. A gray haired gentleman sitting across the aisle broke into our conversation and announced that he was eager to buy a Corvette. At first I thought he was asking for advice, but before I could start my usual spiel about used Corvettes, he announced that he had scheduled a meeting with Sid Dillon Sr. to discuss the purchase of a NEW Corvette. He added that he was seeking support because his wife was NOT enthusiastic about the Corvette.

I decided to humor him, so I asked if he was looking for a base C7, just to see if he knew anything about Corvettes. He responded with a NO. He intended to buy a blue 2018 Z06 from Sid Dillon! He calmly mentioned that he was 85 years of age, and he was trying to convince his wife that he needed the Z06 because his best friend had just purchased a red Z06!

As the old gentleman and his wife were leaving Village Inn, Palmer suggested that they should buy the Corvette so they could Join Cornhusker Corvette Club. Never mind that this would run counter to Ron Bockerman's attempt to lower the average age of the Cornhuskers!

Message from the President

Kevin Reit

What does it mean to be #1 in the nation?

There are 240 Corvette Clubs in the National Council of Corvette Clubs.

The Cornhusker Corvette Club for 11, going on 12 seasons, has generated more competition points than any other club in the nation.

Competition points come from a lot of NCCC sanctioned events.

Auto cross – drag racing – car shows – rallye – concours – funkhana. Events that are sanctioned contribute to the point total. This club enjoys competition and looks for opportunities to experience what our Corvettes can do in competition.

We also have a hard working competition director and a dedicated group of people that make it happen.

Scheduling events, setting up the track, tearing down the track and all the coordination that goes with it. Registration staff, timing staff, corner workers, everyone that steps up to make each event happen. This is one of the facets of why I really appreciate this club. People working together for the common goal of competition.

Working together, competing with one another, and enjoying the opportunity to experience our Corvettes.

There a lot of quiet workers that make this fun and we know who they are.

Now we know what it means for Cornhusker Corvette Club to be #1 in the nation!

Thank you for all you do.

Your President – *Kevin*

Message from the Social Directors

Bob Edmundson & Kathy Cashell

Fall is such a great time of the year to enjoy the great outdoors, especially when we can drive our corvettes!

Unfortunately, we seem to be running into clouds and drizzle for some of our planned socials this year but we'll keep trying. We had a great time on our recent road trip to the Amana Colonies and Galena.....despite going through several heavy rains to get there!

We're looking forward to our 2nd annual CCC Picnic and Movie Night on Oct. 21st at the Lucky Duck Garage (indoors & dry!). This will also be your opportunity to make a donation to help Gene & his Rotary Club help "stamp out polio".

We'll be meeting at one of our contributors - Ragazzi's Pizza, on Oct 24th, to enjoy a fun Halloween themed car show (weather permitting) and dinner. You can dress up also!

More fun activities are planned for November and December so be sure to watch your email updates and also keep checking for additional details on the CCC website and Calendar.

Hope to see you all then,

Kathy & Bob

FUNNY SIDE UP

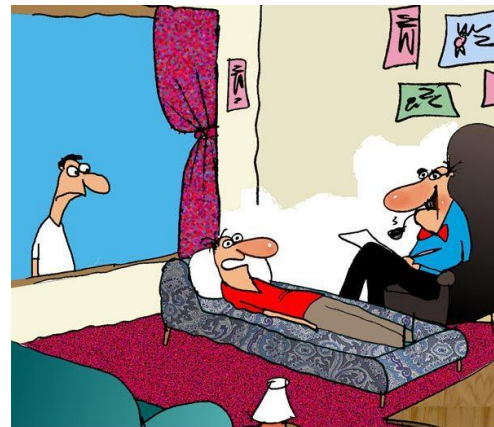

"My new security system vaporizes anyone who gets too close to my Corvette. I'm going to miss Jim."

"Mind if I take your Corvette for a spin? I'm tired of being slow."

"Maybe if I gained 2,000 pounds and painted myself red, he'd actually spend some time with me."

"I think I'm suffering from paranoia. I parked too close to a guy's Corvette, and I think he's been stalking me ever since."
