OFFICE OF THE PRESIDENT

As the New Year breaks - cold and snow around – we start wondering how soon we can get those Corvettes out and running. Soon it will be spring and our Board of Directors has been hard at work planning the year's social and racing schedules.

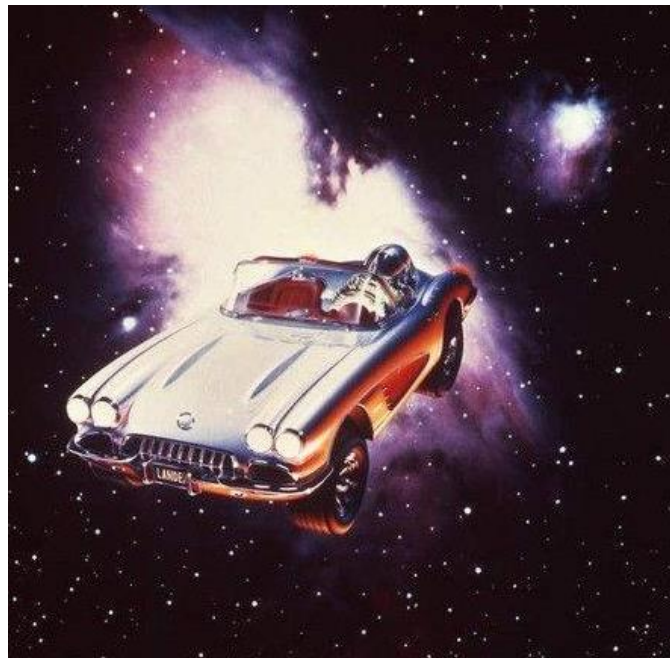

A lot of thought – planning and discussion goes into each function. The board is working hard to get a balance of road trips – Meet & Greets – Funkhana – Rallies – Autocross – Car shows and maybe even some drag racing.

I want to again thank all of those that served on the board in 2017. They made it a fun and event filled year. This year we have a few new board members that will add a new mix to the events. I am looking forward to all the fun and exciting things they will be making part of our activities this year. Each year the club seems to be getting better and better. That is because of the contributions of previous board members and the input of those that are added. The club members are a big part of this as well. Several club members have suggested activities they would like to see the club do. I would continue to ask each club member to make suggestions.

Those Corvettes may be in storage and under covers, they may be in a shop getting tuned up for racing and they may be dusty and cold. But it won't be long before we hear the motor turn over – the roar of the exhaust - the clutch engage and the tires getting traction. We will be off to enjoy the car – the event and the day with our fellow Corvette owners. Plan to come along and share in the fun!

President,
Kevin Reit

If Kevin had picked the car instead of Elon Musk.

FROM THE GOVERNOR'S DESK...

As winter drags on the hardy continue our existence in the frigid Nebraska winter while the lucky board cruises and slip down to the gulf coast to ease winters bite. Yet one thing we have in common is our cars nestled in the garages and storage areas to await the spring. As your new Governor, I am learning first hand that this club doesn't sleep through the winter but uses the winter to recharge, celebrate the past year and plan for warmer weather and the next year.

In coordination with Don Angerth, Competition Director, the social committee and Pete Fagan, Summer Festival Director, we are planning a season that truly will have something for everyone. From sanctioned car shows, to high and low speed autocross, a Funkhana, Rallyes, Valve Cover Racing, dinner and cruise-ins at local sponsors and maybe even some non-corvette related activities. We are working to make 2018 the best year yet for Cornhusker Corvette Club.

I have been busy scrounging up sanctions for those that wish to compete regionally and nationally and coordinating with other regional clubs to make sure that you can probably earn points on any given weekend this summer within the Western Region. I think I will be hard pressed to find a weekend to get away, but I've already promised Kelli we will find one or two that don't involve helmets, trailers and spare tires (not to say the Corvette has to stay home but fitting three dogs in it may be difficult :).

I encourage everyone to support the West Region Banquet on March 3rd. Show your support for the region and meet some fellow Corvette owners from around the Midwest. Racers don't forget to get your number requests into the Regional Competition Director, Gary Brisbois and help support the West Region Scholarship. And as always, watch your social calendar and don't miss the Meet & Greets and other events the social committee has come up with.

So "hold onto your socks" as Gene would say, this year promises to be a great one for Cornhusker Corvette Club and truly you will find something for everyone in 2018.

P.S. I will once again be attending the NCCC Governors meeting the end of February, if you have any questions or concerns you would like me to take to the national level, please let me know.

*** UPDATE ***

Kidde Fire Extinguisher Recall

Allen H. Sohl

In the December 2017 issue of Husker News 'n Views, I explained that Kidde is recalling a large number of potentially defective fire extinguishers. Kidde is supplying replacement fire extinguishers at no cost.

On January 6, 2018 I received my first replacement unit. It appears to be much improved. It is the same size as my old unit, but it has several changes:

- The valve is metal, not plastic.
- The pin is metal, not plastic.
- The mounting bracket is metal, not plastic.
- The unit is rechargeable.

The recalled unit must be returned in the shipping carton. Detailed instructions are included.

I would encourage anyone who has one or more Kidde fire extinguishers that are on the recall list to request replacements.

PROPOSED CHANGES TO THE 2018 OPERATING RULES AND JOB DESCRIPTIONS

Please take a few minutes and review the proposed changes to the Operating Rules of Procedures and the Job Descriptions for our club. The proposed changes are in red. These will be voted on at the April meeting.

- This committee of six will meet in February and create a list of Charitable Organizations and submit that list at the Board of Directors meeting in March.
- From this list of Charitable Organizations, all members will select three at the General Meeting in March.
- The Board of Directors will review the tally and determine the three Charitable Organizations for funding for that calendar year. Any ties will be broken by a vote of the Board of Directors.
- The fourth will be the National Corvette Council's Charitable Organization for that calendar year.
- The charitable funds collected thru various sources will be split between the four Charitable Organizations equally.
- The Charitable Organizations selected will be announced at the April General meeting and in the newsletter.
- Funds will be distributed by end of business year.

Proposed changes to Corporation Job descriptions

The following paragraph should be moved from the Treasurer to the Members at Large.

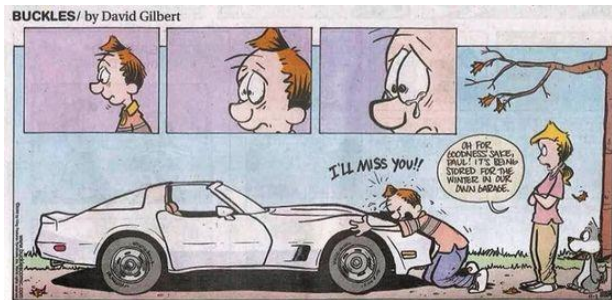

- Maintain a list of all Corporation property. The list shall be updated whenever additional property is purchased or acquired by any other means. Likewise, the list shall be updated whenever property is sold, consumed, destroyed, discarded, or otherwise disposed of. The Members at Large shall schedule and oversee an annual inventory of Corporation property and shall submit a corrected list to the Board at the April BOD meeting for review and resolution of any discrepancies.

NOTE: Members at Large may delegate the responsibility for corporate property list maintenance to a designated Quartermaster.

- The two Members at Large will select a committee of four "members in good standing" to select the final four charitable organizations that will receive donations from the list of organizations provided by the general membership. (See ref: Article X – Guidelines for CCC Charity Distribution.

NOW THAT'S FUNNY RIGHT THERE...

Five months into his coma, Brad's wife finally finds the words to bring him back to life.

"I think I'm suffering from paranoia. I parked too close to a guy's Corvette, and I think he's been stalking me ever since."

THERE I WAS or is it, Where was I?

My Rookie Year

I know it's been a while since most of you had a rookie year or were a new Corvette owner so I thought I would share mine. I learned many things during my rookie year in the CCC and racing NCCC. Mostly that the weather rarely cooperates when you're excited about driving your car. The St Patty's Day parade got cancelled, because apparently the tires and cold temps don't mix. Who knew? Not this guy that's for sure. Terri and I were sick during the Contributor's Rallye but no worry, it rained like hell that day anyway. I was unable to attend Don's driving school because we were out of town. Again, I was bummed and I don't think I saw a single corvette until the first race in Lincoln. No sweat though it was foggy and cold for the first race. I think the sun finally came out and between dodging tornadoes in Bellevue and hail storms in Papillion two weeks later we managed to find more than a few sunny warm days and got to enjoy some of the club's events.

We bought our car in spring of 2016 and intended it to be only a "date car" for us. We didn't really know much about Corvettes yet and enjoyed the stock ride for that first summer. I know I started this by saying "we" as I really wanted it for both of us but let' be honest, I did most of the driving and by the time it was finally put into storage for the deep sleep of winter I think I put 5000miles on it. Now my Chevy pickup, which had never spent a night out in the cold, was pushed aside and found itself third wheel out in the elements for the winter.

During that first winter as I would walk through the garage to my pick-up, I'd see the cool car there with a cover on it, lift the skirt to peek at it from time to time, run the engine, turn the tires, and then realize that a man can really miss a car. Again, who knew?

I realized we needed some corvette friends so I would know who to go to for maintenance and accessories in the local area. I finally found this club and being a typical male, afraid of commitment, I debated spending the money to join the club. That was by far the best decision made in 2017. We were in good hands with Chris Tooker and it all started with our first Meet & Greet last Feb, a meeting and O'Reilly's World of Wheels lead by Chris Tooker but this time he was wearing a green suit reminiscent of "The Riddler" from the original Batman series. I quickly realized this bunch is full of the friendliest group of folks this side of the nut house.

About that time I started to notice what I liked and didn't like about the car. Did I mention the car would only be for date nights? Yeah right, commence with the upgrades! I'm a bit of an audiophile and noticed this really cool car had a lousy sound system, so that was the first upgrade. I ripped out the entire interior and rebuilt the sounds system from soup to nuts. I noticed the wheel paint was chipping and then realized it would look better with drilled and slotted brake and rotors. Any performance benefits were bonus, not that "we" would need them. Later in the summer came new chrome wheels and Borla exhaust system. The car was just too quiet and I was very happy to realize Terri liked the new sound. YES!

As we were introduced at our first meeting Theresa Eller yelled at me from across the room and that planted the first thought about racing this beautiful car. "Nah, I don't want to mess it up" I thought, "I really don't want to race it" I thought. Yeah right. Unfortunately, my medical issues now prohibit me from flying, something I'd spent most my life learning and perfecting as my profession. I miss it every day, it's a real bummer sometimes but it didn't take long to fill that void with racing. I learned a lot from the likes of Ray Kennedy, Larry Lichtenwald, Don Angerth and the lot. I learned Ray Kennedy will be off the track at least once every race, Ron Hernandez will do a 360 with style, Tim Ogle can drive the hell out of his car and there are plenty of ladies that will give us men a run for our money. These people will do anything for a fellow corvette owner. To my shock, Dave Hemphill even loaned me a set of autocross tires one Sunday, when I got a screw in mine so I wouldn't miss any events that day.

I raced that car all summer and into the fall. I found I craved it, looked forward to the next race and lamented the ones early in the season that I elected not to attend. There were times I was less interested in my time than making the corner workers run. One time I even came to a dead stop, backed up went around the cone and continued. Dummy! As I passed Kevin at the next corner I was laughing and yelled, "You're Welcome." By the end of the season I had a blast, so much fun in fact that I won rookie of the year. Yay Me! But that wasn't the best part of the year. The best was the wonderful new group of friends that I made in this marvelous club. You all are the reason that makes us want to come to the socials, meetings, car shows, races, Summer Festival, etc. Terri has said more than once that she is glad I bought that car and joining this club is a key part of that comment.

Somewhere in there Ron Hernandez nominated me for about 7 different club positions. I only have two for the moment but he keeps trying. An old adage comes to mind, "Revenge is a dish best served cold."

I still miss flying, I miss driving my car and can't wait for those warmer days. This winter it's new shocks and sway bars as I look forward to another year with a great group of folks. It feels more like family than what I thought a club would.

Thanks for a great year & Save the Wave,

Pete Fagan
