Figure 1 CCC representation in New Orleans. Congratulations on being NCCC National Champions again.

Office of the President

In July, Jayne and I attended the 59th Annual National Corvette Convention in New Orleans, Louisiana.

It was great getting the Corvette out and taking it for a long drive thru Missouri – where Jayne saw the Amish for the first time, in their horse drawn carriages -then thru Arkansas, the corner of Tennessee and into Louisiana. We attended the convention to do some drag racing, to take a few tours, and pick up the clubs National Championship Award.

The evening of the awards banquet we expected to receive the National Championship Award and I was prepared to make a few remarks, thanking them for the recognition and everyone who enabled us to win the award.

However, I was not prepared to receive the Roger Clancy Humanitarian Award. This award is given to a NCCC member or club that has gone the extra mile in their work for charity. The Cornhusker Corvette Club was fortunate to accumulate funds from out of club racers and contributors that enabled us to give \$13,500.00 to St. Jude in 2018. This money will go a long way in helping the many children that seek help with cancer treatment at St. Jude. This club has shown great heart and compassion for those in need. So, I was very humbled and honored when the Cornhusker Corvette Club was selected to receive this award.

To win a competition award is very exciting and everyone in the club should feel proud of the efforts made in that accomplishment. However, being recognized for our efforts to assist these children struggling with cancer should make us all feel good about being a part of the Cornhusker Corvette Club.

Your President -

Kevin Reit

From the Governor's desk...

It seems as though summer is slowly slipping away. But fear not, we still have a lot to do before we once again put our cars to bed for the winter. We still have a full social calendar with meet and greets, car shows and parades. And don't forget Summer Festival is coming up in just a few weeks (don't forget to get your registration in to take advantage of early-bird pricing, remember you can get the discount rate by registering at the next general meeting, after that it is normal pricing).

To finish the July competition calendar, we had 26 cars come out to Onawa Raceway and Events Center on the 29th. It was great weather, great competition and a facility that shaped up to be a very nice place to not only race but hold events and gatherings as well. We have already been invited back to possibly take on a Mustang or Camaro Club in grudge racing or to have cruise in meal in their events center. More to follow as we see what we can fit into the calendar.

The race season continues as well this summer with, at the time of writing this, we have a full calendar for August with Hawkeye Downs in Iowa the 4th and 5th, Metro Community College – Elkhorn the 11th and 12th, 18-19 August is Ankeny Iowa and then summer festival. What a month.

Again, I ask you to please support all the events we have from the corner worker program to meet and greets to social events. We are on a fantastic trajectory to be number one in the nation again this year. Something we have come to expect from the great members of the Cornhusker Corvette Club, where we certainly have something for everyone.

General Meeting Minutes

July 19, 2018

DRAFT

Vice President, Ray Kennedy, presided over the meeting since President, Kevin Reit was attending the NCCC National Convention in Louisiana where he was accepting the awards our Club won this previous year.

We began the meeting with the Club reciting the Pledge of Allegiance.

Ray announced it was Kathy Gau's birthday. The Club sang "Happy Birthday" to her and enjoyed birthday cake in her honor.

Ray recognized West Region Treasurer, Ron Bockerman. Gary Brisbois, West Region RCD, and Kathy Brisbois, National Parliamentarian, were absent and attending the NCCC National Convention.

Ray thanked everyone who brought door prizes and reminded us that Kathy and Jerry Koraleski are still collecting non-perishable food for the Stephens Center. Kathy Brisbois is collecting toiletries for a homeless shelter.

Our guest speakers were Damian and Logan from Owner's Pride, one of the Club sponsors. A \$50 gift certificate from Owner's Price was won by Howard Renshaw.

Ray Zimmerman, Public Relations, informed us he has no new contributors at this time. He gave away a \$50 gift certificate from Discount Tires to Joann Leners. He drew Jerry Koraleski's name for a free dinner at next month's meeting under the Wear Your Name Badge to the Meeting program.

Carolyn Horst, Secretary, reminded everyone to be sure to let her know if there is a Club member who is in the hospital or has lost a loved one since she sends cards from the Club. She asked for a motion to accept the minutes from the June 2018 meeting. Perry Dawes made a motion to approve the minutes and Kathy Koraleski seconded the motion.

Pete Fagan, Summer Festival Chairman and Newsletter Editor, thanked everyone who sent him articles for the Newsletter this month. The Summer Festival will start off with a chili cookoff and pot luck at the Lucky Duck Garage on Friday, August 31st. You can tech your car that evening. Prices are discounted if you sign up and pay before August 1st. Low speed races will be held on Saturday, September 1st at RPM, with dinner that evening at Quaker Steak and Lube. On Sunday, September 2nd, there will be seven high speed events at RPM and a Par Three Golf Tournament at Papio Greens Par Three Course. There will be a car

show on Monday, September 3rd at Madonna Rehabilitation Hospital with the Rallye leaving from there.

Members at Large, Sharon Renshaw and Ron Hernandez, had nothing to report.

Ron Hernandez showed us a t-shirt quilt he had made using Corvette t-shirts. He is selling raffle tickets for the quilt only within our Club. Also, the farmer's market in the Papillion Park, 84th Street, on Wednesday nights during the month of August will donate all proceeds to Moving Veterans Forward. He is going to need volunteers from our Club to help move furniture on August 29th or 30th. He is starting a second non-profit called Pantry for Our Patriots which will provide perishable and non-perishable food to veterans beginning September 1st. HyVee is partnering with Pantry for Our Patriots and will hold the food until Ron notifies them that this food is needed. The veteran will be provided enough food for a month. There will be supervised visits at the Moving Veterans Facility for veterans who have children in foster care. Moving Veterans Forward donated toys to another non-profit organization, Precious Memories.

Ron Hernandez told us there will be a car show at Huber Chevrolet on Saturday, October 13th.

Chris Tooker, Membership Director, informed us of new members, Neil and Kim Schumacher from Columbus, Nebraska who could not make the meeting. He introduced James and Marcy Heggen who joined this evening. James is a former CCC member returning after a 15 year absence. Michael and Penny Hardiman, new members, are also retired from the Marine Corps. It was estimated we now have 77 members who are veterans. We officially have 363 Club members. He announced there will be a free Veterans Appreciation event on Friday, August 27th, at the Patriarchs Distillers in LaVista, address on flyer on back table or you may phone Chris at 303-880-1906 for the address. Allan West, retired Lt. Colonel and former Florida congressman, will be in attendance along with Don Bacon, Nebraska congressman.

Ray Kennedy announced the party he is hosting to celebrate 25 years of sobriety will be held on Tuesday, September 11th, from 4:00 to 8:00 p.m. at Circle C Stables on South 36th Street, half mile south of Highway 370 on the west side.

Tom Horeis, Treasurer, went over the budget figures for June by line item. Tom informed our Club we contributed a total of \$4,045 to the Madonna Rehabilitation Hospital at last month's meeting.

Jon Brown, Governor, told us regional and national championship patches are on the back table for members to take. Gary Brisbois will distribute the 1st to 10th place patches when he returns next month. He is asking for more workers to help with racing. He informed those who would like a high speed license that they need a total of 10 events over three weekends to qualify. He informed us we are eligible for NCCC discounts. You can access these by going to the NCCC Website. In September, there will be nominations for national officers. Positions open are President, Treasurer, Parliamentarian, Membership and Public Relations.

Don Angeroth, Competition Director, informed us of the upcoming racing events:

1. July 29th drag racing in Onawa, Iowa
2. August 4th and 5th at Hawkeye Downs
3. August 11th and 12th low speed at Metro Community College in Elkhorn (7 events each day)
4. August 18th and 19th low speed at Ankeny, Iowa
5. Summer Festival on September 1st low speed and September 2nd high speed at RPM

6. September 15th and 16th low speed at Southeast Community College in Lincoln
7. September 29th and 30th low speed at Lincoln Airport

Ron Bockerman told us we will be 1/8 mile drag racing at the new Onawa Drag Track on Sunday, August 29th. The first event is matching times. Second event is record drags. They will not be tearing down engines on the cars who set a record. We will be establishing new records for 1/8 mile drags since we have only run the 1/4 mile drag in the past.

Bob Redmond, Social Director, told us about upcoming social events as follows:

1. Car Show at Gregg Young Auto Dealership which is a fund raiser for Operation Super Jack. Sandy Swift is heading this fund raiser for our Club.
2. Gretna Parade on July 28th with pot luck lunch afterwards at the home of Rick and Joan Harshbarger
3. Meet & Greet at Tish's Restaurant in Council Bluffs on July 31st
4. Putt Putt Golf at Pacific Springs Golf Course on August 7th
5. Picnic on August 12th
6. Roads Less Traveled trip August 19th – 24th
7. Vettes on the Rockies August 24th-26th
8. Summer Festival August 31st to September 3rd
9. Car Show at Mary Our Queen Church on September 9th
10. Sobriety celebration on September 11th
11. Miles for Madonna on September 22nd
12. Eureka Hot Springs on October 4th – 7th. Details will follow

J. B. Benedict, Points Chairman, informed us our Club is in first place in NCCC points by about 3,500 points over Windy City in second place. If we keep up the racing participation, our Club should remain in first place for the rest of the year. He has a current listing of the top 20 racers in the nation.

Mary Ann Laaker thanked our Club for all of the support we have given her family during the illness of her husband, Denny Laaker. There is a celebration of life for Denny on Sunday, August 12th from 1:00 to 6:00 p.m. at the Arlington VFW

Old Business – None

New Business – Gene Gau told new members he has window stickers for their car window that show we have been National Champions for 12 years at a cost of \$7.00.

Kevin thanked Shelly, Holly and Candace for the great food and hospitality.

George Horst told us that Stein Night at the German American Society will be Friday, July 27th.

Jan Richardson read the names of the Club Members with birthdays in July and the Birthday winner for July was Bob Hegwood.

John Salmans awarded a \$50 gift card from Service One to Nick Maddalena.

The 50/50 winner was Nick Gau in the amount of \$122.00.

A motion was made to adjourn by Gene Gau and seconded by George Horst.

Carolyn A. Horst

Secretary

Figure 2 Grill masters Howard & Sharon Renshaw helping out at the Lincoln Airpark autocross on 7 Jul.

Summer Festival 2018

The 2018 Summer Festival is rapidly approaching. My intent for this year is to ensure we have something fun for everyone: Valve Cover Racing, Car show, Rallye, Racing, and a Golf Tournament. Of course, some of it is centered around our favorite past time...No, not Corvettes, I'm talking about FOOD of course.

Fri, 31 Aug: We'll kick it off with a party at the Lucky Duck Garage. That's Gene and Kathy Gau's home for those who aren't already familiar (10409 36th St, Bellevue). For those that are racing, bring your car for tech and get it done early. Of course, you are always welcome to tech at RPM on Sat morning. Perry is graciously running the Valve Cover Racing that night so get those valve cover cars tuned up. There will be a chilli cookoff. I know it may seem a little hot still for that so consider making a sweet chili vice a spicy one. The rest of dinner will be pot luck so please contribute to dinner by bringing one of the following items: **Last names beginning in A-I = Salad, J-R = Dessert, S-Z = Side Dish.** You might also want to bring a lawn chair to sit in.

Sat, 1 Sep: We'll start the low speed racing with tech at 0830 (that's 830am for the non-military types) at Race Park of the Midlands (RPM) at 19340 Jessup Ave. Pacific Junction, IA 51561. After racing is over we'll rally at Quaker Steak & Lube (3320 Mid America Dr, Council Bluffs, IA 51501) at 6pm. We are booked for 60 members in the room with the Corvette hanging on the wall naturally and it's pay as you go. This was a fun dinner last year so I'm expecting a good show again this year.

Sun, 2 Sep: Another day of racing, but this day will be high speed. Tech starts at 830am. Remember to review the rules for highspeed and if you are new, you must have completed 10 low speed events over three weekends to earn a high-speed license. (See Don Angeroth with any questions)

For those not interested in racing, there is a Par 3, 18-hole golf tournament at Papio Greens Golf Course (11050 S 66th St Papillion, NE). You can only bring 3 clubs so choose wisely. I recommend a putter for starters and that leaves you with 2 more. No alcohol is allowed, Lunch IS included (Jimmy John's subs) and beverages can be purchased at the clubhouse.

Mon, 3 Sep: We will start the day with a Car Show at Madonna Rehab Facility near Village Point (17500 Burke St, Omaha, NE). The car show starts at 10am and includes lunch. (Jersey Mike's Subs) Gene Gau has designed a great Rallye route for us this year that I think you will enjoy. As a side note, lunch is NOT included as part of the Rallye, rather as part of the car show. The Rallye will finish up with an early afternoon dinner/late lunch at one of our contributors.

So, come on out and enjoy the weekend. I'm looking forward to seeing everyone out there.

Pete Fagan

Summer Festival Director

25 Corvette Facts

that every enthusiast should know

by [Scott Oldham](#) //
July 24, 2018

Chevrolet has been pumping out Corvettes for 66 years, building about 1.5 million of them since 1953. That makes the 'Vette one of the most popular sports cars of all time.

First- and second-generation Corvettes were one of the first true collectible cars of the modern era, and collecting Corvettes remains a global phenomenon. More than just another two-seat sports car, the Vette is an American icon. There's a good reason it's often referred to as America's sports car, and every enthusiast should have at least a basic knowledge of its seven generations. So in case you need to brush up, here are 25 Corvette facts every enthusiast should know:

First Corvette with V-8 power: Although the very first production Corvette hit the streets in 1953, Chevy wouldn't replace its inline six-cylinder engine until 1955. That year, Chevy debuted its new optional 265-cubic-inch small-block V-8.

First Corvette coupe: All Corvettes produced from 1953–62 were convertibles. Then the C2 Corvette debuted in 1963 with two body styles, a convertible and a coupe with the famous split rear window. It was popular. Of the 21,513 Corvettes built that year, 10,594 were split-window coupes.

First Corvette with independent rear suspension: Also in 1963, the sports car's 10th year of production, the C2 became the first Corvette with an independent rear suspension. The design incorporated a transverse leaf spring, and it has remained a part of the Corvette's suspension design for the last 55 years.

First Corvette with fuel injection: In 1957 Chevy enlarged the Corvette's small-block from 265 cubic inches to 283. Three versions were available, including the top-of-the range "Fuelie" with the Ramjet mechanical fuel injection system. It was rated at one horsepower per cubic inch, a big deal at the time, and was the first fuel-injected production Corvette.

First Corvette with disc brakes: Although the Jaguar C-Type and D-Type won the 24 Hours of Le Mans in the 1950s with disc brakes, Chevy wouldn't add the technology to the production Corvette until 1965. Four-wheel discs became standard that year, but some buyers still insisted on the drums and received a \$64.50 credit.

First big-block Corvette: Chevy also gave us the first big-block Corvette in 1965. The L78 396-cubic-inch V-8 had an iron block and heads, an aluminum intake manifold, solid lifters, and big Holley carburetor. It cost \$292.70 and was installed in 2157 Corvettes. With 425 hp it was the most powerful Corvette up to that time.

First Corvette with triple carburetion: The first production Corvette with triple carburetion was the very first Corvette in 1953. The sports car's 150-hp 235-cu-in Blue Flame Six, which remained through 1955 (it made 155 hp its final year), drank through three one-barrel carbs. Triple carbs with three two-barrel units then returned in 1967 with the optional Tripower 427 big-blocks, the L68 rated at 400 hp and the L71 rated at 435 hp.

First Corvette with dual quads: By 1956, Belgian-born engineer Zora Arkus-Duntov was putting his fingerprints on the Corvette and increasing its performance. Although the Corvette had used multiple carburetion since 1953, in '56 came its first dual quad V-8 rated at 225 hp. It was a \$172.20 extra over the base engine with a single four-barrel carb, and most Corvettes built that year—3080 of the 3467—were equipped with the option.

First Corvette with T-tops: Every Corvette coupe built from 1968–82 had T-tops. The removable panels were fiberglass and body color until 1978, when tinted glass panels were offered as an option.

First Corvette Stingray: Sting Ray (two words) was first used on the 1963 Corvette and remained throughout the C2 generation. The C3 debuted in 1968 without the Sting Ray name, but it reappeared on the fenders of the 1969 model as one word, Stingray. It would remain there until 1976.

First Corvette with an aluminum engine block: Today every new Corvette is powered by an all-aluminum engine, but the first production Corvette to use this weight-saving technology was the 1969 ZL1 model. Chevy built two—one yellow, one white—with the all-aluminum ZL1 427 big-block. The engine was rated 430 hp, but with big port heads and 12.5:1 compression ratio everyone knew that was bull. Chevy also put this engine in 69 Camaros that year.

First Corvette with a functional hood scoop: Functional ram air systems, drawing air from outside the engine compartment to feed the engine cooler and denser air, became popular on muscle cars in the 1960s, and most systems used a hood scoop. The first Corvette with a functional hood scoop was the 1967 model with the L88 427 engine option. Only 20 were produced. The stinger scoop on the other big-block Corvettes looked the same but was not functional.

First Corvette without a trunk: It's funny to think about now, but from 1963–82 the Corvette did not have a trunk. The small cargo area behind the seats, a very tiny area in the convertibles, had to be accessed from inside the interior. Today such an inconvenience would not be tolerated, but it was for many years. On the 1982 Collector's Edition model, Chevy finally hinged the glass rear window for better access. The design remained through the C4, C5 and C6 generations.

First Corvette with a transaxle: To better balance and improve the handling of the fifth-generation Corvette, which debuted in 1997, Chevy engineers moved from a traditional transmission location, which is bolted to the engine, to a transaxle design that moves the gearbox to the rear of the car. The design has remained through the C6 and C7 generations.

First Corvette with 17-inch wheels and tires: When the C4 generation debuted in 1984, it became the first Corvette with 16-inch wheels and tires. Its Goodyear Eagle Gatorbacks (255/50ZR16) were at the time the widest tire ever fitted to a Corvette, but it wasn't long before Chevy increased the Corvette's wheel diameter to 17 inches. In 1988, Corvettes with the Z51 and Z52 suspensions and all 35th Anniversary models wore 17 x 9.5-inch aluminum wheels, which were significantly larger than the 16 x 8.5 wheels on other models. Tire size jumped to 275/40ZR17.

First Corvette with DOHC: There has been only one production Corvette with a double overhead cam engine. [That was the ZR-1](#) produced from 1990–95. The 5.7-liter V-8, developed by Lotus and constructed by Mercury Marine, debuted with 375 hp, but quickly increased to 405 hp.

First Corvette with more than 700 hp: [Today's 2019 Corvette ZR1](#) (no hyphen) is the first production Corvette with more than 700 hp. Its supercharged 6.2-liter V-8 is rated 755 hp at 6300 rpm and 715 lb-ft of torque at 4400 rpm, making it the most powerful Corvette of all time. It's also the most expensive, with a base price of \$119,995.

First Corvette over \$20,000: With a base price of \$22,537.59, the 1982 Collector Edition Corvette became the first Corvette with an MSRP higher than \$20,000. Incredibly, when the C4 Corvette debuted two years later, it cost less than the CE with base price of \$21,800.

First Corvette Rally Wheels: Chevy's Rally Wheels became a fixture on C3 Corvettes for many years, and they are still popular today. But Rally Wheels actually debuted on the C2. In 1967, they made their first appearance on the Corvette as the standard wheel. The aluminum bolt-on wheel was optional.

First Corvette with four-speed transmission: Interestingly, Corvette's first four-speed manual transmission, the T-10 manufactured by Borg Warner, was a \$188.30 option in 1957—exactly the same price as an optional two-speed Powerglide automatic. But it was worth it. Because Chevy added it to the option list late in the year, only 664 Corvettes got the four-speed. The standard transmission was a three-speed manual.

First Corvette aluminum wheels: Although the cast-aluminum knock-off wheels appeared in the promotions for the all-new 1963 Corvette, a manufacturing problem kept the wheels from being produced until 1964, when they became an option. Hubcaps over steel wheels remained standard equipment until the introduction of the Rally Wheel in 1967.

First Corvette with hideaway headlights: Designed by Larry Shinoda and Peter Brock, under the watch of GM Styling Chief Bill Mitchell, the 1963 Corvette became the first with hideaway headlamps. The feature became a fixture on Corvettes until the C6 generation debuted in 2005.

First supercharged Corvette: Superchargers have been used on the Corvette [since the 2009 ZR1](#). That year the LS9 6.2-liter V-8 made 638 hp and was the most powerful American car up to that time. It was also the first Corvette with more than 600 hp. Today the Corvette Z06 and ZR1 models have supercharged engines.

First Corvette Indy 500 pace car: [A Corvette has paced the Indianapolis 500](#) an incredible 14 times, more than any other car. But the relationship wasn't fully formed until 1978, the Corvette's 25th year of production. Chevy sold 6502 Pace Car Editions that year, and black and silver two-tone classics continue to rise in value.

First Corvette to race at Le Mans: In 1960, Sportsman racer Briggs Cunningham, a man who would eventually build and race cars of his own design, took three Corvettes to the 24 Hours of LeMans. Dressed in the traditional American racing colors of white with blue stripes, only one of the near-stock Corvettes finished, winning the big-bore GT class and placing eighth overall.

"Did you really think you were going to get away with slamming your door into that Corvette in that parking lot 60 years ago?"

For Sale

Tires for Sale: Good Year P235/30ZR19

I have two corvette tires for sale. They are "like new," with 249 miles on them. I will attach three pictures of them. New cost was \$1,096 and I'm asking \$500 for them. If you need additional information, please let me know. Thanks so much!!!!

Some history: I replaced the rear tires late last fall and the original tires were Goodyear, so we stayed with Goodyear. This year, I replaced all four with Michelin . . . the two new Goodyear tires only have 249 miles on them.

Again, thanks for your help.
