Welcome to SCYC!

Camps

Thoughts from your Coordinator

As you know, we have moved our SCYC NJMS program back to the elementary building. We feel that this will be a positive move for our kids and club. As we move forward, we will be hosting club in the elementary cafeteria and computer lab. We will continue to offer activities that are geared toward our middle and high school students. With this change however, comes the termination of the Subway Eat Fresh program. We understand that some families benefited from this program but we will not be able to continue it at the elementary building.

We know that the academic needs of our students are important to everyone. We will continue to host one on one tutoring, mandatory homework rotation, academic rotations and social/recreational rotations. We hope to provide the support that every student needs to be successful.

We will continue to offer a variety of camps such as STEM, Create, Explore, Culinary, Move and Social Encounters which the students may choose from each day. These camps will rotate through the month so they will have many choices of activities.

To keep things interesting for the students, we will offer a variety of camps. This month's camps include:

Explore: This camp will allow students to experience the wonders of the world around them by exploring Canada. We will be looking at traditional food and activities that our neighbors to the north enjoy.

STEM: Your students will use hands-on activities to build, test, and redesign while still learning important Science, Technology, Engineering and Math principles. This month we will explore Boat Building and Makey Makey. These activities are designed to be fun while still following Indiana Academic Standards.

Culinary: Your students will release their inner chef by exploring the culinary arts. They will be able to learn about nutrition as they make smoothies while learning important culinary and teamwork skills.

Create: The students will unleash their inner artist as they express themselves by making shadow art. The students will design their art using many different tools and techniques.

News group: This camp is to help the students explore the world of journalism. The students will have a chance to interview and write about local athletes.

Thank you for making our Family Day Dinner a success. We are pleased to see the commitment our families have to helping students succeed. We would also like to send a Special Thank you to Drug & Tobacco Free Starke County for sponsoring this delicious dinner and event.

Club will be closed **Oct. 16th – 20th for Fall Break.** We will resume normal programming **Mon. Oct. 23.** Please enjoy this time with your family.

We will wrap up our **Butter Braid** sale on **Oct. 13.** Please have order forms and money turned in so that orders can be placed. Please make checks payable to SCYC. Butter Braids will be delivered **Nov. 10th.** The money we raise goes to help support all the fun, educational activities here at club.

We have been very fortunate to have great support from both schools. Just as we need the support from the school, we need your support and so do your students. That is why we are asking that our students have 4 family visitors throughout the year. These visits show the students that we are working together to support them and their academic success.

Every Friday we offer a different family event ranging from games, health screenings, crafts to informational sessions. These events start at 4:15 and run until 4:50 each week. Please join us for our Family Friday events.
