SCYC—KMS Grand Reopening!!

Welcome back! I hope everyone is enjoying their start to this new year and sticking to their resolutions. SCYC has made improving this program our very own New Year's resolution and it all begins January 9th, 2018. This newsletter will introduce our students and families to the brand new SCYC. Welcome to Club 2018!

Homework Assistance

In the past, all students were required to attend a 40 minute homework center. This will no longer be required for students who are maintaining a "C" or better in the core subjects. Students meeting this requirement will be able to immediately partake in the clubs of the day. These students will still be able to attend the homework center if they choose to do so. Students who are not showing academic growth, or students with grades below a "C," will be required to attend 40 minutes of academic tutoring. These students will receive more assistance on homework and other teaching methods will be utilized.

SCYC Clubs are Improved

We have drastically improved the clubs we offer at SCYC! SCYC will still offer many of the favorites, but we will offer them more frequently and with better activities. We have also noticed that on some days, students just prefer to relax and socialize. This is now an option each day at SCYC at our new Club Cafe. Be sure to check out the calendar on the back of this newsletter to see which clubs are offered on each day. You can also visit this link to see a sample of one of the lessons offered in our STEM Club. <https://www.pbslearningmedia.org/student/code/apple4859/>

Overall Changes

Our new program is designed to help all of our students find new interests and explore them. Each day will be different with new clubs offered. Students now have the freedom to truly make SCYC into anything they want it to be!!

Want more information about SCYC? Be sure to like us on Facebook or visit www.thescyc.org.

December Students of the Week

Each week, SCYC staff members choose one student who goes beyond simply following all youth club rules. These students were exceptional role models for their peers, participated in all activities, and demonstrated what it takes to earn SCYC Student of the Week. Each time a student earns SOTW, they receive free time during Writing Prompt Center. Congratulations to all of our Students of the Week for December.

Week 1: Amanda Warren

Week 2: John Novello

Week 3: Vanessa Bradley

SCYC Updates

Our Polar Plunge fundraiser begins January 9th. Students will get to choose the type of water that is dumped on the staff for the first time ever! Be sure to check out our dismissal area for details on how you can help. As always, thank you for your continued support.

Also be sure to check WKVI for important weather updates. If the schools close or dismiss early, SCYC will also be closed.
