SCYC ODHS– Club 2018!

Last month began our brand new look and feel to Club 2018 at ODHS! The students love the new changes, and even wrote an article to summarize some of their favorite activities in this new club atmosphere. Please take a moment to read the following article written by our students to understand the excitement and changes that Club 2018 has to offer! We hope you will join us!

The "NEW" SCYC

Written by : Brooke, Emily, Trinity, Kerstyn, and Jessie

Are you wondering what's new in Club2018? A lot of things have changed. The biggest change is we now have Club Café. Club Café means that you can get free coffee, assorted teas, or hot chocolate every day. Students get their very own coffee mug to decorate and can bring in their own snacks and treats too. A variety of creamers and sweeteners are included. We also now have a daily discussion or debate instead of boring writing assignments. We get to have free time with friends as long as our grades stay above a C. If they drop, Ms Vogel is here to help, so it's no problem. Do you have an artistic talent? Do you enjoy robots? Then Tuesday and Thursday are built just for you. We have Art Club and Lego Club weekly. Maybe you have culinary skills? Every Wednesday and Friday we learn new recipes and cook in the kitchens. These changes are improving our club. We hope you stop by to see them in action.

Help SCYC Raise Money for our Great Kids, and Get Help with your Taxes!

You can help SCYC raise money for our wonderful kids by getting your taxes prepared by H&R Block or Block Advisors this year. Present the referral code **40010001097400** at your appointment. If you are a NEW client, SCYC will get a \$20 contribution. Thank you! You can visit <http://www.hrblockreferrals.com/NonProfit/KitFlyer/40010001097400>. for even more information. This program runs through April 15th, the end of tax season. You can feel good knowing you helped our Club raise money while getting your taxes done!

Come Watch our Students Present Robotics to the Elementary Site!

On February 26, 2018 at 4 PM CST at ODES, our middle and high school students will be presenting an exciting robotics lesson to the elementary students! They have worked hard to create their own robots, program them, and want to share this excitement with the younger kids. Come be a part of this exciting event and encourage the student in your life!

For more information on The Starke County Youth Club, visit www.thescyc.org and be sure to like us on Facebook.

February Clubs

This month we have another set of exciting clubs to offer our students! They continue to be offered on consistent days of the week so the students always know what to expect!

In our **CREATE** club the students will be able to continue their exploration with drawing techniques and continue working on some exciting projects. They will then end the month by learning how to do some weaving!

Our **CULINARY** club will include creating chicken enchiladas, home made hot chocolate, various pies, and lasagna.

Our **STEM** club will include LEGO robot building, exploring activities related to water density, hot wheels, building a straw tower, and exploring how our heart rate functions in different circumstances!

In our **EXPLORE club**, we will learn about culture and customs of Austria, China, The Netherlands, and The Philippines.

We will also have **FITNESS** club where we play giant bowling, corn hole, various sporting events, and open gym!

Be sure to contact Ms. Amber for membership information, if you would like to join the fun!

Have a great month,

SCYC- ODHS February 2018
