Youth LEAD Capstone Event!

We have been working hard on our Youth LEAD curriculum, and want to celebrate with our families and the community by having a capstone event to end our time with this program! Youth LEAD has taught leadership skills and drug resistance education, and we want to celebrate what Youth LEAD is all about by hosting an event for all of you to attend!

Throughout this program we have learned that good leadership means community involvement. We learned that sometimes the healthiest choice we can make is to help others. Kids in LEAD have decided to host a food drive. During the week of 4/16, please bring be sure to make donations to our food drive collection boxes located throughout the school. Then on Tuesday, April 24, beginning at 3:00 PM CST please join us in room 204 at Oregon-Davis High School. We will be having a movie night! There will be plenty of snacks and popcorn of course, so be sure to join the fun. As an “entry fee” we ask that you bring a canned good to add to our donation drive. We can’t wait to see how much we collect to support those in need in our community. Spread the word and please plan to join us in this celebration on April 24!

Join us Friday, May 4, 2018
SCYC Radio Thon
Tune in to WKVI 99.3 10 AM-4 PM CST
 Call 772-6241 on May 4th to participate in our annual fundraiser. Your donations help to ensure that your children receive services that they need and enjoy. These include, but are not limited to:

- A safe environment for your student to be when you are not at home.
- A place where they can have effective social interactions, learning behavioral expectations that are emotionally healthy and assist them in being successful in various environments.
- We help your student with their decision-making skills both in and out of school.
- We provide one-to-one tutoring to those students that need it, so they may be successful academically.
- We also provide a quiet homework environment where students may work independently on their school assignments and receive help as needed
- We host weekly family events, free of charge, to provide opportunity for you to connect with the community and your students
- We teach your student important life skills, such as cooking, leadership, cultural tolerance, science and STEM experiences, and career exploration, to help better prepare them for life after high school.

Donations and pledges can be made using the pledge sheets available from Youth Club. You may also contribute with a credit card by visiting www.thescyc.org. Please talk with your family, church, organizations, work place friends, managers, and bosses. Donations of any size will be accepted and every little bit helps!

April Clubs

This month our theme is all about Superheroes, and we have a lot of great clubs happening!

In our **CREATE** club the students will be able to continue exploring drawing and painting techniques and work on creating some fantastic superhero decorations for our radiothon celebration!

Our **CULINARY** club will have our students making biscuits and gravy, cupcakes, Spider-Man Taco Dip, Captain America marshmallow treats, and even a superhero cookie bake off!

Our **STEM** club will include LEGO robot building, various group STEM challenges, and exploring the Mars Lander!

In our **EXPLORE club**, we will learn about culture and customs of France, Australia, Malaysia, and Scotland.

We will also be finishing our **YOUTH LEAD** this month which has been an exciting program that allows our students to gain leadership and drug resistance skills!

Be sure to contact Ms. Amber for membership information, if you would like to join the fun!

Have a great month,

Amber Stephan
