### FOR IMMEDIATE RELEASE

New York, NY, December 1, 2016 - We are pleased to announce that Jeremy Katz has joined Audit Services U.S., LLC as partner. As a leading provider of unclaimed property services for the states for over 20 years, Audit Services is committed to growing its general ledger auditing capabilities with expanded solutions designed to help the states achieve greater levels of compliance.

Over the last 22 years, Jeremy has worked very closely with all of the states to help them develop and implement innovative unclaimed property compliance programs. Most recently, he was with PRA Government Services where he created new services to help states identify holders who had apparent reporting deficiencies and then support efforts to bring those companies into compliance.

Prior to joining PRA, Jeremy was with ACS/Xerox for 20 years where he was Chief Operating Officer of the State Business Process Solutions division. While at Xerox, he was deeply involved in developing and managing solutions for nearly all of the states' unclaimed property programs. Specifically, he supported the implementation of complex database management systems, the creation of unclaimed property compliance and collections related solutions, marketing and sales initiatives, contract management and strategic planning. Other areas of focus also included business process outsource and information technology-related solutions, such as: finance and tax applications, cloud-based computing, infrastructure management, enterprise content management and application development and maintenance.

In the coming months he will be reaching out to you to discuss how Audit Services may be of service to you and your constituents. In the meantime, please do not hesitate to contact him at 917-692-5852 or [jkatz@auditservicesus.com](mailto:jkatz@auditservicesus.com)
