# ABOUT IBCE2017

**CYPRUS  
CHAMBER OF  
COMMERCE AND  
INDUSTRY**

# International Business Conference & Expo 2017 – Larnaca, Cyprus

In the current highly competitive globalized economic environment, multinational companies and organizations are obliged to maintain their strong market position. They do so by providing a vast range of high quality products at the lowest possible costs to their customers. Consequently causing international investors to devote more time into researching the available products in the global markets and discover ways of cutting down expenses and generating more profit from any available product. Cyprus, being an island with a great variety of opportunities for investment as well as its geographical location, provides the chance for multinational investors to further enhance their market position in the global economy.

The island's strategic geographical position allows for quick access into neighboring markets. Through the simplistic yet competitive tax system, high quality level of human effort and level of service, high level of product variety that allows for macro and micro-economic opportunities and simply a great quality of life – Cyprus proves to be a desired location for investment.

Navy Group International, in association with Larnaka Chamber of Commerce and Industry are therefore proud to present this opportunity for multinational investors to further explore the Cypriot market as well as the European markets and those of the Middle East. We invite you to make your mark in the private and public sectors of not just the Cypriot economy but worldwide economy as well.

The International Business Conference & Expo 2017 – Larnaka, Cyprus will provide an opportunity for international investors to meet and more important introduce themselves to the European as well as the Middle East markets. The Forum aims to unite and give birth to a great range of new partnerships and opportunities as for international investors and international product and service providers.

For any additional information we encourage you to contact us directly via email for any possible enquiries about the Forum procedures –

# Letter from the Chairman of The Board

CYPRUS  
CHAMBER OF  
COMMERCE AND  
INDUSTRY

## Letter from the Chairman of the Board – Mr. Elias G. Eid (President of Navy Group International)

Most of us strongly believe in the concept of a unified and stable economy. Where investors all over the world would be able to prosper and enhance their market position through continuous investments into new economic markets and new partnerships and most importantly friendships. This is primarily the reason Larnaka Chambers of Commerce and Industry and myself have decided to organize the International Business Conference & Expo 2017 in Larnaca, Cyprus.

It is obvious that through such an event we will be able to unify multinational companies and their representatives in order to further develop the already established, strong and competitive global economy. This event will create lots of opportunities for investors from countries in the Middle East, European Union and Asia to unite and form an economy that will suit them. The International Business Forum will assist international business executives to create strong long-term partnerships with one another. Such partnerships will inevitably strengthen the worldwide economy and to a certain degree, help to decrease some of the worldwide tensions that we witness in our world today.

Personally, I have a great background of investment expertise and throughout my career I have stumbled upon the island of the Republic of Cyprus. I have seen a great opportunity in the small but strong island and to this day, I have not been disappointed with my decision. Cyprus has been my second home and base of my business for over thirty years and I have grown to appreciate the strategic location of the island that allowed me to further grow my business into what it is today.

We at Navy Group International would like to welcome all of our fellow partners and friends both old and new to join us in creating a resilient economy for the benefit of our world that we live in.

Mr. Elias G. Eid  
President of Navy Group International  
Chairman of the Board
