To finally see someone of my own age write an article in "Seventeen" about alcoholic fathers, was a great relief to me.

We do not have a group because our town is very small. I would very much like to know more about how to form an "Alateen" group and also I want to learn about alcoholism from an outside source.

Whatever I have to do to get this information I would be more than willing to do.

Thank you!

Sincerely,
