

Premier Futboltech Development Academy

Technical Academy

Premier Futboltech Development Academy's technical program is second to none as it has been professionally structured to get the best out of every player regardless of skill level. The technical academy is our base membership as we are looking to help improve the each player's technical component of the game.

Have you ever been in a game and made a bad pass? Have you ever made a bad touch? Can you curl a ball into a moving target? Can you drive a ball to a player making a run? Can you manipulate a ball through traffic? Can you comfortably receive a ball under pressure and play away with minimal touches?

OF COURSE YOU HAVE MADE A BAD PASS OR MAYBE HAD AN UNLUCKY TOUCH! WHO HASN'T? OF COURSE YOU CAN DO ALL OF THESE THINGS SO WHY WOULD YOU JOIN OUR PROGRAM?

The program is designed to teach each player the proper techniques of each and every different skill set and not to only implement them into your game, but master them. We do not believe in practicing until we get something right, we believe in practicing until we can't get it wrong. Basic skills in soccer are often overlooked because often time's players are capable of using their physiological capabilities in order to "get by". We do not want players to "get by" in the heat of competition; we want them to thrive. We strongly believe that our programs provide young athletes the tools needed to thrive in the competitive environment.
