Transformation

I want to first off by thanking WODA and everyone at Titus Dental & Affordable Dentures for changing my life for the better. When I was 17 I went down a very dark path and started spending time with the wrong people and following the wrong crowd. I dropped out of high school and things went downhill from there. I didn't realize god had another plan for me. In 2016 I was incarcerated and was sent to a 9-month rehabilitation center. A true blessing in disguise. I have been sober since December 2016 and I've never felt better and more excited to live the life I have always wanted. The only thing that was stopping me was my teeth. Since things have changed I am no longer the distant or shy girl I used to be. I get compliments all of the time of how I have such a beautiful smile, which I have never heard until now. My family and friends tell me how happy they are to see me smiling again. I find myself smiling for no reason at all or only because I am incredibly happy. I've started my new job and I feel like there is nothing I can't accomplish. Thank you again WODA by giving me this great opportunity to have such a beautiful smile. I am truly grateful. Thank you so much for changing my life.
