## Preparation Tips

- Parking is available in designated areas (orange) until Sunday morning. However, you are encouraged to have someone drop you off at the race start area and pick you up (or leave a vehicle for you) at the finish-line. **Event transportation will not be provided back to the start line from the finish-line.**
- Teams are encouraged to have a designated driver responsible for getting runners to the desired aid station(s). **Event transportation will not be provided.**
- Download the **RaceJoy** app and become familiar with it's features. Every runner will be **required** to download the app and utilize the LIVE feature on a mobile device for safety and tracking purposes. If a runner is discovered not utilizing the tracking feature they are subject to being pulled from the run course until turned on.
- Why is transportation not provided to and from aid stations and the start/finish lines?
  - 1) There are 9 different "locations" along the route
  - 2) The route is 50 miles long and takes an average of 55 minute to travel end to end.
  - 3) A number of miles of I-98 are under active construction.
  - 4) 25 miles of the route is 2 lane road
  - 5) The number of vehicles needed to provide adequate transportation for all 9 locations creates traffic concerns expressed by the FDOT and FHP. We apologize for any inconvenience this may cause and appreciate your understanding.
