SINCE
1979

High Density P.T.F.E. Thread Seal Tape – Made in China

Specifications

Application: To be used on all types of threaded fittings for passage of water potable and non-potable, most chemicals, oxygen, gasoline, natural gas, hydraulic and high-pressure lines.

Physical Properties:

Chemical Properties: Minimum of 99% Teflon

Thickness: 0.0035”

Elongation: Minimum of 50% (most of the time far exceeds this)

Width: Nominal width +/- 0.02”

Length: Nominal length up to +20”

Density: 0.8

Pressure Rating: up to 10,000-PSI

Incompatibility: Avoid using on Molten Alkali, certain Halogen products and Fluorine at high temperatures and pressures.

Temperature: -450°F to +500°F

Government Standard: Meets MIL-spec T-27730A

Shelf Life: Unlimited
