F Dock Update

We are happy to announce that the F dock project has been completed. The fence panels have been completely repaired and we have started to move some boats back to their original slips.

Once we get everyone moved back to the north side of the breakwater, we will start to condense the south side of the breakwater. The plan is to move everyone as far north as possible to create a big block of open slips for our guests.

If you are currently on F dock and not assigned to a slip on the north side, we will be contacting you to assign you a new slip.

If you have any questions or concerns feel free to stop by the office.

Quiz

The United States Coast Guard has established specific safety items that must be on board every recreational boat, such as having a life preserver (jacket/vest) for every passenger. Which of the items listed below is usually NOT required?

1. Distress signals (flags, etc)
2. Whistle, bell or horn
3. Fire extinguisher
4. Compass and map
- 5.

The answer to last month's quiz: You are at the helm of a sloop-rigged sailing vessel under sail on the port tack, on a beam reach, with all appropriate sails set and properly trimmed. You are instructed to "head up quickly". To utilize your sails to assist with the turn, you should, #4, slack the jib sheet.
