Bricks 4 Kidz® Enrichment Classes build on the universal popularity of LEGO® Bricks to deliver high quality, educational play. Every class is a fun, enriching experience for your child, building new projects each week based on a 8-week theme, using the classic bricks loved by generations of children. Children will work individually to build with Duplo bricks and the lesson includes information about the letter of the alphabet or number that is represented by the model. **This enrichment program is open to ALL students. Parents will be responsible for transporting their student to the Marshall portable (if coming from the Montrose main building).**

**Financial Assistance is available. No child will be denied permission to participate due to economic hardship. Any family which finds this experience a hardship should contact Mrs. Samuels to make arrangements for their child to be added into the lottery.*
