A NOTE ABOUT COMMON CORE AND LEARNING OBJECTIVES:

I understand that many teachers are working to meet certain standards. I also understand the frustration teachers can feel when assemblies, guest speakers, etc. interrupt instruction. That's why I've designed my programs to be a hybrid of skill and content investigations that easily tie-in with calendar-year themes and standards.

I'm a very flexible presenter and have taught preschoolers through lawyers. I am happy to tailor a presentation to meet the request of a particular topic as well.

I am happy to present to large and small groups , and can adjust the content of my presentation for young or older audiences. When you hire me for a full day visit, I am yours for the day and you are welcome to form a schedule that works for you. My goal for the visit - to be an extension of learning, not a distraction or loss of instructional.

Audience:	Teachers, childcare, workers, faculty, & advanced student
Duration:	1 hour
Participants:	10 min, 30 max
Price:	\$250

Carrie can adapt her program to fit the needs of your school or organization. Some of the topics she has presented on are: Women of Kenya, Engaging All the Learning Styles While Teaching, Kenya Cultural Explosions and many more.
