

A high-speed photograph of a water droplet falling into a pool of water. The droplet is captured mid-fall, just above the point of impact, creating a clear, elongated splash that rises vertically. The water surface is calm with subtle ripples. The background is a soft, light blue gradient.

Beginnings come in many forms!
Adding a ritual ceremony and
celebration to any beginning marks
that beginning as special in the lives
it impacts. Beginnings can be a new
life, a new home, a new job, a new
start. We commemorate these
things because we wish to bring our
community and love to the new
creation and carry it and them into
our future on a wave of love.

Whatever the beginning which you
wish to celebrate from christening
or naming to starting on a new goal,
I will listen closely and design a
ceremony that embodies all your
dreams and hopes in a way that
resonates as uniquely yours, and for
you.
