To Whom It May Concern,

Mrs. Julie Ramos Lagos has been a very loving and caring aunt for all 3 of my children, starting in August 2008. There were many weekends and even more extended periods of time that all 3 were left in her care and I had complete trust and confidence that my children were in a safe and secure environment.

Julie has always had a very caring and nurturing personality which really shines through when she is caring for children. She is always very attentive to their needs and will go the extra mile to put a smile on their face and make sure they are well taken care of. Julie always thinks of special activities to do with my children and it makes my heart smile to see them have such a great relationship with their aunt.

In the 8+ years Julie has been taking care of our children, there has NEVER been an issue with her care. She is a very responsible and highly dedicated person and I know she will give her all to ensure a very high standard of care for all children in her care.

Sincerely,
