

DOLPHIN HAVEN

ON THE RIVER DART

DOLPHIN HAVEN is located in a secluded creek on the beautiful river Dart with mooring and support facilities for the boat owner who seeks an alternative to the crowded marinas.

The moorings are located within a sheltered drying creek mid way between Dartmouth and Totnes. As the berths dry out at low water they are limited to boats that can take the ground with a maximum draft of 4ft.

Tidal Pontoon Berths

Two sets of floating pontoons provide facilities for 30 craft with a maximum of 36ft length overall. Boats are able to move in and out at all states of the tide, except for a period approximately 2.5 hours either side of Low Water.

Other Moorings

A further pontoon section moored mid-creek provides a form of Trot mooring for those that don't mind a few minutes rowing

General Facilities & Services

Each berth comes with a car parking space for one car. Due to limited Car parking areas, additional cars will attract a parking fee. Toilet and shower facilities, are provided free of charge

Support Services

Dolphin Haven can provide a complete marine engineering and boat repair/ refit and maintenance service within the yard.

Although Dolphin Haven does not operate an on site chandlery (at the moment) all items from anodes to stern gear can be supplied to prior order with the minimum of delay. Diesel fuel and Gaz cylinders are also available near by.

We work closely with a good team of sub contractors to undertake any mast work or gel coat repairs.

The yard is also home to **Devon Wooden Boats Ltd** which specialises in traditional wooden boat repairs and **Dolphin Marine Engineering Ltd** who are skilled in all aspects of mechanical propulsion.

Laying Up Facilities

Facilities are available to over winter boats at the yard or store ashore all year for boats up to 36 foot weighing no more than 8 tons gross. Fin keel yachts can only be accommodated if a cradle can be supplied by the owner.

High pressure wash off, mast storage and engines servicing are available together with repairs and refitting to a high standard. Power and water points are available around the yard.

General

Dolphin Haven is conveniently located within easy reach of the M5/A38 and Torbay Ring Road. (A3022) The beautiful river Dart is one of the most attractive sailing centres in the South West and Dolphin Haven lies mid way between Dartmouth and Totnes - opposite Dittisham. The yard is in a quiet and peaceful location just off the main Brixham Road through Galmpton Village where you can buy all necessary provisions and enjoy the local hospitality at the Manor Inn.
