MIRACLES!**

HOW TO PLAY:

A miracle match set is made up of three cards:

Miracle Worker Card

Miracle Text Card

At the bottom of each miracle card are the other two miracle cards needed to make a matching set.

After cards are shuffled each player receives five (5) cards and remaining cards are placed face down creating a draw pile.

Player to left of dealer begins by asking any other player for a card that they need to make a miracle match.

If the player asked does not have the card
then the player draws one card and their turn is complete. Their turn is over even if they draw the card they had asked for.

If the player asked does have the card then the player who asked gets one more turn to ask any player for a card. If successful in getting a card from another player their turn is complete, they DO NOT draw a card. If not successful then they draw one card and their turn is complete.

If a player plays all of their cards they draw two cards and their turn is complete.

Players may lay down completed card matches during their turn.

Play continues until all miracle match sets are complete.
