

Job Posting

Partnership Track Position in Dallas, Texas

Home Call

Sleep in the comfort of your own home while on call.

Case Mix

Enjoy a mix of both challenging and routine cases.

Work-Life Balance

Easily make day-to-day adjustments to your workload.

All Physician Anesthesia Practice

Do your own cases 100% of the time. Practice medicine one patient at a time with the patient-physician relationship at the center.

Medical City Dallas Hospital is our primary facility where we have a long history with most of our physicians participating on committees and in medical staff leadership roles. Medical City Dallas Hospital is an 800-bed tertiary referral hospital located near the lovely Preston Hollow area of Dallas. We also provide anesthesia at several nearby ambulatory surgery centers which creates a healthy balance of both challenging and routine cases. We work in facilities with an open anesthesia staff which means surgeons and anesthesiologists enjoy the luxury of choosing to work with each other. Life's too short to spend time with unpleasant people, so we are selective in choosing only collegial surgeons.

15

MINUTE DRIVE TIME

All facilities are within a 15-minute drive of each other. Don't waste your time in traffic!

1

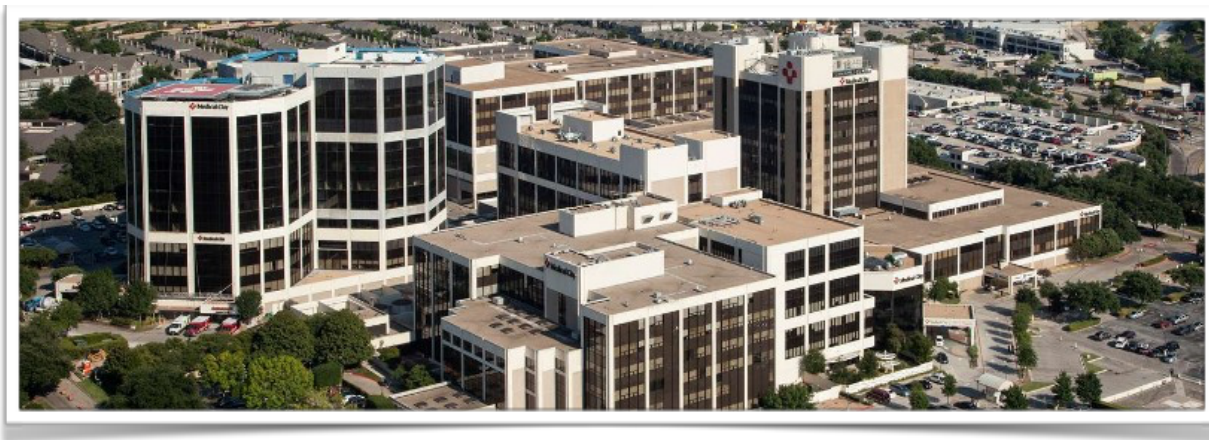

CALL NIGHT PER WEEK

On average, we take about one home call per week with the post-call day most often off.

11

PHYSICIANS

We are a supportive, close-knit practice within the larger USAP family at Medical City Dallas.

BMW Anesthesiology

was founded at Medical City Dallas Hospital in the 1970's by Drs. Bradley, Miller, and Watson. In 2016, we joined US Anesthesia Partners (USAP), the top single-specialty anesthesia provider in the country.

USAP is a physician-owned company that is integrated with expert business partners. Individual practices within USAP maintain their clinical autonomy and professional identity.

Fair and Transparent

The BMW Anesthesiology division prides itself on transparency and fairness for physician partners and associates alike. Work and earnings are split in an equal opportunity

manner. Your compensation is based on a percentage of your blended revenue which increases each year until eligible for partner. Blending is essential to ensure fair compensation for your work regardless of each patient's ability to pay. You can easily make day-to-day adjustments to your workload to maximize your income or to enjoy work-life balance. Case mix includes both hospital and ambulatory surgery center work in general surgery, gastroenterology, urology, gynecology, orthopedics, plastic surgery, breast surgery, neuro-otology, ophthalmology, and oculoplastics. USAP benefits offered include medical, dental, life, malpractice, 401k match and profit sharing. Sound like a good fit for you? Email your phone number and curriculum vitae to Dr. Reed at lori jean.reed@usap.com

DALLAS LIFE

Dallas is a world-class city offering an extended range of options in dining, shopping, sports, performing arts, fine arts, and museums. There are also award-winning private and public schools from which to choose. Dallas has a prosperous economy posting one of the highest job growth rates in the country. Dallas's cost of living is lower than the U.S. average. Dallas typically has 234 days of sunshine per year and mild weather year round, allowing residents to frequent the numerous area lakes, golf courses, cycling & running trails, and parks. Dallas has two convenient major airports, Dallas Love Field and Dallas-Fort Worth International Airport.
