Stylish cloth or leather-trimmed seats¹ join cupholders in each row, and up to three 12-volt powerpoints⁴ help meet a variety of passenger needs. Plus, with a 5-star overall vehicle score, it received the government's highest safety rating². FULLY FOCUSED ON FLEXIBILITY.

Able to adapt at a moment's notice, Transit Connect Passenger Wagon is prepared for anything. A front overhead storage shelf keeps frequently needed items close at hand. If your day starts with passengers, a low step-in height makes entry and exit easy. Along the way, they can enjoy a panoramic fixed-glass Vista Roof¹ with power sunshade, plus power 2nd-row windows with one-touch-up/-down.² An observation mirror¹ helps you keep an eye on those in back, while the MyKey[®] programmable ignition key¹ allows you to restrict maximum vehicle speed, audio volume, and more so drivers can stay focused. To transport personal items (like a mountain bike) along with passengers, fold one side of the seating flat. For rear passengers, an aircraft-style mid-vehicle overhead console¹ features closeable bins – perfect for out-of-view storage of personal items.

Stopping by the home improvement store? Just fold the seats down and fill it with what you need. The rear liftgate allows easy access for loading and unloading. With the most available seating configurations in its class,² the 2017 Transit Connect Passenger Wagon offers exceptional versatility. Carry passengers. Carry cargo. Or carry it all together. Your options are wide open.

THE PERFECT SPACE FOR EVERYDAY ACTIVITIES.

When company isn't along for the ride, Transit Connect Passenger Wagon has all the cargo space you need for the day's activities. In short-wheelbase models, 77.1 cu. ft. of cargo space is available with the 2nd-row seats folded forward. Or, remove the seats altogether for even more room. In long-wheelbase models, 2nd- and 3rd-row seats fold down to create a flat load floor that offers 104.2 cu. ft. of cargo space. And with dual sliding side doors, plus your choice of a rear liftgate or 180° swing-out rear cargo doors,¹ loading and unloading cargo is easy.

For those pre-dawn family adventures, like farmer's markets and flower days, cornering fog lamps⁴ throw additional light alongside the vehicle for help in parking and other tight maneuvers. If the weather turns chilly, the Quickclear™ electric windshield defroster¹ and heated sideview mirrors¹ quickly clear fog, snow, sleet and ice to improve visibility. In the 2017 Transit Connect Passenger Wagon, you'll find the perfect match for your active lifestyle.

FUELS YOUR ENTHUSIASM FOR ADVENTURE.

Delivering 169 hp and 171 lb.-ft. of torque (much of it at the low end), the 2.5L i-VCT I-4 engine provides a maximum towing capacity of 2,000 lbs.¹ It's paired with a 6-speed SelectShift[®] automatic transmission to give Transit Connect Passenger Wagon an EPA-estimated rating of 27 hwy mpg.² With SelectShift capability, you can shift for yourself, or leave it to Transit Connect.

BLIS[®] (Blind Spot Information System) with cross-traffic alert³ can alert you to vehicles in your blind spots with a light in either sideview mirror⁴ if its radar sensors detect a vehicle there. Cross-traffic alert can help warn you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you slowly back Transit Connect out of a parking space.

Enhancing vehicle stability in a range of conditions, AdvanceTrac[®] with RSC[®] (Roll Stability Control[™])⁵ selectively applies individual brakes and modifies engine power to help keep all 4 wheels firmly planted. Torque Vectoring Control⁵, Curve Control⁵ and trailer sway control^{3,5} add an additional level of driver and trailer-towing confidence, making Transit Connect Passenger Wagon the perfect match for your high-energy lifestyle.

XLT SWB Passenger Wagon in Magnetic with available equipment. ¹When properly equipped. ²EPA-estimated rating of 19 city/27 hwy/22 combined mpg (Passenger Wagon). ³Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ⁴BLIS replaces standard integrated blind spot mirrors. ⁵Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
