Kris Thomson	Sharron Haworth
Pam Revere	Lori Gravy
Karen Jost	Sherry Miller
Rick Schliepsiek	

Prescott

Maria Protas	Bess Trevino
Frank Seuss	Sara Campbell
Kim Kenyon	Sharon Melpolder

Welcome Marie Bernardo!

Marie Bernardo is our new Chino Valley Program Manager and we are delighted to have her join our staff. She has tons of energy and loves People Who Care. You will certainly enjoy working with her.

She is diligently working on sharing the good news with the community about the wonderful volunteer opportunities available with the People Who Care Chino Valley Program. Please give her a hand by sharing this news with your friends and neighbors.

Yavapai College Radiology Students

Once again, as part of their course curriculum, the Service Learning students will be assisting our Neighbors during their first semester in the Radiology Course. Welcome!

Stroke Support Groups

Two Stroke Support Groups are meeting simultaneously on the 3rd Friday of the month from 10:15 to 11:30 on the campus of the Prescott United Methodist Church. One group meeting is for adult stroke survivors and the other for family members of stroke survivors. Call People Who Care for information.

Prescott Valley Office

Prescott Valley/Dewey Program

8098 E. Valley Road, Ste 3

September 19 was a big day for People Who Care! We opened the doors to our program office in Prescott Valley. We will have a grand, grand opening very soon.

Looking for Office Volunteers

Program Manager, Sallie Stewart, is looking for volunteers to work in the office to answer phone calls and help with scheduling and filling volunteer/Neighbor assignments one day a week for several hours. Please get in touch with Sallie if you are interested.

Those Quarterly Reports!

Enclosed with this newsletter is your Volunteer Report for this last quarter (June-September.) We realize that for many of you this is just a task to be avoided. However, it is really important for us to validate what has or hasn't been recorded in the management database.

What constitutes a TRIP?

When you are driving a Neighbor, please record the number of times the Neighbor *gets into the car*. A doctor appointment without an additional stop, for instance, would be 2 trips (in the car at their home and back in the car after the appointment.)

Why are we having to do this?

Because we were awarded a small but much needed government grant and need to be in compliance by October 1st. THANK YOU!
