## Robotics Inspires

Hawthorne Christian Academy began a robotics program in 2013 with a FIRST Lego League (FLL) team. Since then, Hawthorne has competed with great success reaching the state championships two times in FLL.

This program has inspired our students through learning engineering design, computer programming, problem solving, and presentation skills. In addition, the students develop a strong work ethic and responsibility traits by meeting deadlines and competing in events.

Hawthorne Robotics develops young people into team players, leaders, and active community members.

FLL is available to students until they turn 14 years old. As our students advance through FLL, many of them desire to take the next step in robotics, which is VEX Competition. VEX allows students to compete through their high school years using more advanced robotics components and programming. It is our goal to begin VEX competition by the fall of 2018.

## Sponsorship Opportunities

Hawthorne Christian Academy is a non-profit, private school that receives no federal or state funding. HCA operates entirely through student tuition, grants, and donations. Our robotics program has fundraisers and actively seeks sponsors to assist in developing new programs and maintaining a highly effective team. All of our coaches and mentors are volunteers who receive no compensation. They give their time and expertise so that young people have the opportunity to succeed.

## Sponsorship Levels

### Bronze Sponsorship (\$250):

- Signed team picture with letter of recognition
- Sponsor's logo is placed on the students' robotics team shirts
- Sponsor receives a 1/8 page yearbook ad in HCA's annual yearbook

### Silver Sponsorship (\$500):

- Signed team picture with letter of recognition
- Sponsor's logo is placed on the students' robotics team shirts
- Sponsor receives a 1/4 page yearbook ad in HCA's annual yearbook
- Sponsor is recognized on Hawthorne Christian Academy's website and Facebook page

**2017 Hawthorne Robotics Team**

### Gold Sponsorship (\$1,000):

- Signed team picture with letter of recognition
- Sponsor's logo is prominently placed on the students' robotics team shirts
- Sponsor receives a 1/2 page yearbook ad in HCA's annual yearbook
- Sponsor is recognized on Hawthorne Christian Academy's website and Facebook page
- Sponsor can meet the team, attend demonstration of robotics with photo opportunity, and receive a press release to local media (subject to schedule availability)
