

For the last 12 years AHEPA (American Hellenic Educational Progressive Association) has shown great strength in raising funds for children causes for such charities as the Shriner's Hospital and Giant Steps as well as others, through annual galas.

This year it was a privilege for the Invesa Management team to join forces with Senator Leo Housakos, the newly appointed Greek Consulate, Thanos Kafopoulos, and among many others, Tony Loffreda, Senior Regional VP from RBC for this important cause. Alessa Zaccagna from Linx in PR and Andre Michalopoulos have contributed to the evening's grand total of \$58,000. With effort and dedication, AHEPA's goal over the last 7 years to raise \$250,000, for a new education center at the Shriner's Hospital was successfully attained! The center will become an integral part in helping children and families cope with illnesses and rehabilitation.

February 12, 2011 at the Palace Reception Hall in Laval, was the chosen venue to accommodate over 250 guests who were dressed in their best cocktail attire and shined with bright smiles. The Valentine's Ball graced the evening with glitter and fanfare whereby fun and laughter was shared by all from politicians and businessmen to old friends and new.

Yours truly,

Andre Michaels
