

Executive Director Report Fall 2020 Board Meeting

Current Membership Number:

Healthcare Engineer: 274

Associate: 10

Life: 24

Supporting: 850

Since the shutdown, we have held 12 district virtual business meetings on Zoom. With the cooperation of our Districts and supporting members, we have been able to offer 18.5 ASHE Continuing Education Credits. The annual meeting offers an additional 11 hours of Continuing education hours for not only ASHE but also credits for Florida Professional Engineers, Florida Architects, and LEEP AP. Over 480 FHEA members have participated in these webinars/business meetings. We have some more webinars planned so please watch your email.

We are also tracking our members attendance at these events in WildApricot. You are able to view your event attendance and pull a single report showing the Continuing Education Credits you have earned this year for your certifications. If you have questions about how to access this info, please contact our office.

Since we cancelled our 2020 Spring meeting and no longer participate with the AHCA Seminar, we have revised the CHE application. Please review it and we can discuss if we need any other changes.
