FHEA

Celebrates 50 Years!

FHEA 1962–2012

VOLUME XXVIII, NUMBER 3

FALL 2012

It's hard to believe that this year has gone by so quickly. This is my third of four articles for the year. It has been a very busy and rewarding time for me. I would like to thank the Board of Directors and Alethea for their support in helping to coordinate this year's activities.

I was honored to receive the Platinum award on

The President's Corner

GREGORY C. HODGSON, CHE, CHFM, PRESIDENT

behalf of FHEA at the ASHE Annual conference in San Antonio, TX in July. The Chapter Forum on Sunday was very informative; I found it helpful to hear how other Chapters across the country handle the same issues that we have to address.

On August 17th, the Board met at the Hilton Daytona Beach, the site of next year's Spring Meeting. One of the major outcomes of this meeting was that the Board committed to support *The Science Screen Report* for the next two years. *The Science Screen Report* provides educational science and math material in DVD format to Florida's public school students. For several years now, we have been supporting *The Science Screen Report* for selected elementary and middle schools around the state. With this new commitment, over the next two years, the FHEA

will make this program available to every middle and high school in Florida! In an introduction that appears at the start of every video, FHEA is recognized as the sponsor of the program. We hope this program may help influence students (our future members) to become interested in the engineering fields.

The Board of FHEA is very excited about this year's AHCA/FHEA Seminar and Trade Show. We are celebrating FHEA's 50th Anniversary with a large Gala on Tuesday evening. Active FHEA members and

exhibitors need to send in their Gala RSVP's as soon as possible so we can finalize all of the details. I've been

told we will not be able to seat you at the Gala without this RSVP, because with an event of this magnitude we have to have accurate numbers in the hotel's hands a week before the meeting even begins.

I would like to express appreciation to Skip Gregory, NCARB, for assembling and coordinating the educational presentations of the AHCA seminar that takes place concurrently with the FHEA Annual Meeting. He works hard all year to find the topics and speakers for the seminar.

Our Trade show is sold out again. We will have about 280 booths this year. I would like to personally thank all of our Supporting Members for their continued support of FHEA and the Trade Show.

I look forward to seeing everyone in Orlando at the seminar in a few weeks.
