Association

Dedicated to optimizing the
health care physical environment

ASHE

INTRODUCTION

Dedicated to optimizing the
health care **physical environment**

Who is ASHE?

- Largest association dedicated to health care physical environment
- Over 11,000 Members
- Trusted Industry Resource

ASHE Mission

Dedicated to optimizing the
health care **physical environment**

Dedicated to optimizing the
health care physical environment

American Hospital
Association

Optimize the Health Care Physical Environment

Strategic Goals: Regulation, Reputation, and Capacity

What does ASHE do?

- Issue Briefs
- Monographs
- Just Ask ASHE
- List Serve
- Blog
- New ASHE APP
- Webinars

Dedicated to optimizing the
health care **physical environment**

Get expert insights on Fire Safety Evaluation System (FSES) submissions from the Joint Commission and a life safety expert with this new ASHE webinar (CEUs available).

Completing a Health Care FSES: What You Need to Know in Order to Execute a Successful Submittal

ONE WEEK AWAY! MUST REGISTER 24 HOURS IN ADVANCE

REGISTER NOW! ▶

Tuesday, Sept. 17, 2013
2 to 3 p.m. CT

Under certain conditions, an FSES can reduce costs and save time. This [webinar](#) will provide the information needed to present alternative compliance solutions for your facility through use of NFPA 101A methodology. Learn how the FSES measuring system differs from the *Life Safety Code*® in terms of the level of safety provided through the use of safeguards, and get tips for expediting your facility's FSES review process.

ASHE:

ADVOCACY HIGHWAY

Dedicated to optimizing the
health care physical environment

American Hospital
Association

ASHE Advocacy Program

- Representation
 - National
 - Regional
 - State
- Proactive Efforts
 - Managing code and standards

The ASHE Advocacy Highway

- Two-way means of communication between ASHE and chapters

www.ashe.org/advocacyhighway

A Two-Way Highway

- ASHE learns about local issues from chapter advocacy liaisons
- Advocacy liaisons learn about national issues from ASHE

Repaving Work Underway

- ASHE advocacy leaders met with liaisons in December
- ASHE staff and liaisons continue to communicate on advocacy issues

Advocacy Liaisons

- Advocacy leaders can help – but they have to know about the problem
- Communications through the Advocacy Highway are critical
- Advocacy Liaisons or Chapter Presidents should be attending quarterly conference calls

ASHE:

UNIFIED CODE

Dedicated to optimizing the
health care physical environment

Codes and Standards

Who Regulates Hospitals?

Source: American Hospital Association

<http://www.aha.org/aha/trendwatch/2011/11mar-tw-costofcaring.pdf>

Poor Codes Cost Money without Improving Safety

- **\$9 billion** a year wasted because of unnecessary codes and standards
- Small things could have a profound effect nationwide

Adoption of Recommended Codes

- Working on long term plan to develop a unified set of recommended codes for adoption
- Objectives
 - Improve quality and increase access to healthcare using cost savings from unnecessary and costly codes and regulations
 - Identify unnecessarily increased costs
 - Identify recommended codes and regulations

ICC Ad hoc on Healthcare Committee

- Prepared 35 proposals for IBC
- 26 Approved
- Prepared 33 proposals for IFC
- 29 Approved at Committee Action Hearing
- Prepared 7 proposals for IEBC
- 6 Approved at Committee Action Hearing

ICC Ad hoc on Healthcare Committee

- Align IBC with Life Safety Code
- Align IFC/IEBC with K-tags
- Example Approved Proposals
 - Smoke dampers exemption in hospitals
 - Wheeled equipment allowed in corridors
 - Increase in suite and smoke compartment sizes
 - Placement and storage of ABHR's
 - Eliminate maintenance of non-required fire safety requirements

Guidelines Adoption

- Current adoption status
- Research based decisions
- Advantages of uniformity across nation

SUSTAINABILITY Roadmap for Hospitals

A guide to achieving your sustainability goals

[About](#) [Topics](#) [Drivers](#) [Strategies](#) [Implementation](#) [Resources](#)

Use the Roadmap's [target-setting tools](#) to help define goals and create a strategic plan to improve your facility's sustainability. Learn more [about the Energy Efficiency Challenge \(E2C\), watermark! tool, and waste target-setting tools.](#)

Roadmap Highlights

- Replace AHU filters regularly.
- Evaluate setback of temperature and airflow settings at night.
- Install variable frequency drives on pumps and motors.
- Use standardized environmental questions in purchasing medical products.
- Fluorescent lighting management and recycling
- Improve waste-handling, container utilization, and management process

Sustainability News

- President Obama releases Climate Action Plan
- Sustainability efforts could save the health care industry \$15B over 10 years

Industry News

- Extraordinary steps health care providers are taking to prepare for climate change
- Yale-New Haven Hospital launches effort to reduce

Dedicated to optimizing the health care physical environment

American Hospital Association

- The Sustainability Roadmap site is intended to provide tools and resources that are vendor-, product-, and service provider-neutral. All Roadmap materials are available for download without charge.

- **Topics**—An overview of topic areas, including Building Design And Construction, Commissioning, Energy (and emissions), Water (and effluent), Waste, Supply Chain, and Chemicals.
- **Drivers**—A description of factors that might motivate a health care organization to develop a sustainability program.
- **Strategies**—A guide and set of tools for strategic planning.
- **Implementation**—A clearinghouse of performance improvement measures (PIMs) to help you implement your action plans.

health care physical environment

American Hospital
Association

Ways Chapters Can Help

- Designate a chapter Advocacy Liaison
- Active chapter advocacy liaison
 - Participates in ASHE advocacy conference calls
 - Reports ASHE advocacy news to chapter members
- Report poor code interpretations through Advocacy Highway www.ashe.org/advocacyhighway

Dedicated to optimizing the
health care **physical environment**

American Hospital
Association

Ways Chapters Can Help

Developing a Legislative Presence

- Educate legislators on key issues
- National Conference of State Legislators

Ways Chapters Can Help

Support Evidence-Based Codes

- Work with key organizations to develop a model process for evidence-based codes
- Provide structure to enforce evidence based decisions
- Work with Chapter Advocacy Liaison to promote evidence-based codes

C9

sign up for the coalition!

Chad E. Beebe, AIA, 2/21/2013

More Ways Chapters Can Help

- Spend a few minutes of chapter meetings discussing codes and standards issues affecting your members.
- Actively engage state authorities (fire marshal, licensing agencies) and organizations (hospital, health care) – NOW, not after an issue becomes critical.
