Educational Program

Concrete 101 for Healthcare Facilities
Repair, Protection, and Strengthening of Existing Healthcare Structures

Overview:

This presentation will focus on exploring the repair and strengthening of reinforced concrete structures in the context of healthcare facility environments.

Healthcare facilities personnel will learn valuable information relevant to decisions about the reuse of existing building/structures and will assist with performing short and long-term maintenance for their facilities.

Presenter:

Cornelius Benton is the Senior Manager of Strengthening Solutions for Structural Technologies a division of STRUCTURAL Group - a \$520M specialty design/build repair contractor. He is a Florida State Certified Building Contractor with over 25 years of construction experience. Cornelius is a graduate of the University of Connecticut and presents this topic for continuing education programs for many General Contractors, Architects and Engineering firms. His construction background combined with demonstration tools offer the ability to communicate technical issues that directly relate to all associated with construction.

1.0 Hours of CEUs have been applied for through ASHE.
