Dear Mr. Schilling,

Once again, please accept our gratitude for your support of SCIENCE SCREEN REPORT during the **2018-2019** school year. Your generosity has provided continued access to this award-winning series for the students and educators of Florida.

The FHEA STEM News Channel reaches local classrooms with the most recent worldwide developments and breakthroughs in scientific research. Each episode of SCIENCE SCREEN REPORT encourages students to pursue careers in science and this has become more important than ever. It is critical that today's students – the employees and consumers of tomorrow - have a clear and concise understanding of the impact science and technology has on our everyday lives. With SCIENCE SCREEN REPORT you are providing them with specifically designed curriculum enhancement that helps tie it all together.

We hope we can count on your support to continue motivating students in your community to pursue STEM related careers now and in the future. Simply sign and return the enclosed commitment form, via fax (844-272-6473) or email: [karenc@ssrvideo.com](mailto:karenc@ssrvideo.com).
