Performance Measurements

Film VLT	IR Rejection	Heat Rejection	Glare Reduction
5%	87%	63%	96%
10%	87%	61%	87%
20%	87%	59%	77%
35%	87%	54%	56%
45%	87%	53%	52%
55%	87%	51%	42%
75%	87%	45%	17%

* IR Rejection is tested in the IR range of 780 to 2500 nanometers.

Reported values are typical properties and should not be used as a specification. Since only the user is aware of the specific conditions in which the product is to be used, it is the user's responsibility to determine whether the product is suitable for that intended use. If the specific conditions of use are critically dependent on any of the properties of the product, or if you need further information, contact Madico or your local Madico Authorized Dealer.
