NOVACAB TEAM MEETS WITH EXELON

Kennett Square (February 3, 2017) – The Novacab team and executives traveled to Pennsylvania to meet with Exelon at their Generation and Power Plants Headquarters to discuss Novacab’s state of the art thermal energy technology and innovative ways to address overburdened grids and environmentally friendly, green initiatives.

More information will be released as it becomes available.

About Novacab

Novacab’s mission is to provide clients with premier, innovative and green technologies. Their outstanding team, staffed by skilled, attentive and efficient people, is thriving to develop and manufacture smart energy storage technologies that can benefit to industrial processes, buildings, and vehicles.
