FOR IMMEDIATE RELEASE

NOVACAB TO PRESENT AT IDTechEx Show!

Austin (August 10, 2017) – Dr. Stephane Bilodeau, Novacab President, will be presenting at the IDTechEx Show! this November in Santa Clara, CA. The presentation will cover the hybrid

IDTechEx Show!

EMERGING TECHNOLOGIES **UNLEASHED**

integration of Electric Energy Storage (EES) and Thermal Energy Storage (TES) that have been implemented to optimize energy efficiency and load leveling. This integration allows for significant improvement and stability in the operation in critical applications such as hospitals, datacenters, manufacturing plants and other critical thermal/electrical processes.

The IDTechEx Show! presents the latest emerging technologies at one event, with nine concurrent conference tracks and a single exhibition covering 3D Printing, Electric Vehicles, Energy Harvesting, Energy Storage, Graphene, Internet of Things, Printed Electronics, Sensors & Wearable Technology.

To attend the conference, November 15-16, 2017, please visit www.idtechex.com for more information.

About Novacab

Novacab's mission is to provide clients with premier, innovative and green technologies. Their outstanding team, staffed by skilled, attentive and efficient people, is thriving to develop and manufacture smart energy storage technologies that can benefit to industrial processes, buildings, and vehicles.
