⁴ BCBSAZ Dental Coverage Guidelines are available upon request. Not all dentally necessary services are covered benefits.

In-Network Providers

"In-network" dental providers have contracts with Blue Cross Blue Shield of Arizona (BCBSAZ) or with BCBSAZ's independent dental network vendor. In-network providers accept negotiated fees as payment in full for covered dental services, and file a member's claims with BCBSAZ. Members usually have lower out-of-pocket costs with in-network providers.

Out-of-Network Providers

"Out-of-network" providers have no contract with BCBSAZ or with BCBSAZ's independent dental network vendor. Out-of-network providers set their own rates, can collect up to full billed charges from members, and have no obligation to file members' claims.

For out-of-network providers within Arizona, BCBSAZ reimburses the member based on the lesser of the amount from the applicable BCBSAZ fee schedule or the dentist's actual billed charge. If the provider is located outside Arizona and a fee schedule is used, BCBSAZ increases the applicable fee by 25 percent to establish the allowed amount.

For both in and out of network providers, reimbursement for restorative services is also subject to analysis for Least Expensive Available Treatment (LEAT), as explained below.

Example

The following example shows how use of an in-network provider may save you money. This example assumes:

- o you have already met your annual deductible
- o you have 80% coinsurance for in-network providers
- o you have 60% coinsurance for out-of-network providers
- o your dentist's billed charge is \$150
- o BCBSAZ's established in-network fee is \$100
- o LEAT analysis (see description below) does not apply

In-Network Provider		Out-of-Network Provider	
Billed charge	\$150	Billed charge	\$150
BCBSAZ in-network fee	\$100	BCBSAZ in-network fee	\$100
BCBSAZ pays (80% x \$100)	\$80	BCBSAZ pays (60% x \$100)	\$60
You pay (20% x \$100)	\$20	You pay (40% x \$100)	\$40
		Plus difference of billed charge	\$50
<i>Your Out-of-Pocket Cost:</i>	\$20	<i>Your Out-of-Pocket Cost:</i>	\$90

While your actual expenses will vary, in this example you would have saved \$70 by using an in-network provider. The above example does not show how LEAT analysis would affect cost sharing.

Least Expensive Available Treatment (LEAT)

There may be several methods for treating a specific dental condition. All claims for restorative services such as fillings and crowns are subject to analysis for the least expensive available treatment (LEAT). Benefits for certain restorative procedures will be limited only to the LEAT. For these procedures, BCBSAZ will only pay benefits up to the LEAT fee. You may elect to receive a covered service that is more costly than the LEAT but you will be responsible for your cost-share based on the LEAT, and you will also pay the difference between the fee for the LEAT and the more costly treatment ("LEAT remainder"). Any payment you make for this LEAT remainder will not count toward deductible.

Optional Pre-determination

If your dentist has recommended services and you are concerned about coverage or costs, your dentist can ask BCBSAZ for a pre-treatment estimate, called a "pre-determination." BCBSAZ will review your dentist's proposed treatment and send your dentist information explaining what services will be covered and your estimated out-of-pocket costs for these services. A pre-determination can help you better understand what will be covered and the amount you will need to pay.

Waiting Periods

A waiting period is a specific amount of time that you will not have coverage for a type of service under your plan. Waiting periods may apply. Please refer to your employer's coverage guidelines for details. If you are unsure about whether a waiting period applies to a needed service, you may also call BCBSAZ customer service.
